1. Simple search

- **The Informit Health Collection** covers more than 200 source, titles, including peer-reviewed journals, conference papers and e-books.
- Coverage includes evidence-based healthcare treatment for the nursing profession and other allied health disciplines.

The screenshot shows the Informit website search interface. At the top, the Informit logo is on the left, and navigation links like 'HOME', 'SEARCH', 'SEARCH HISTORY', 'OUR COLLECTIONS', 'DATA', 'PUBLISH', 'OPEN', 'INDEX', 'ABOUT US', and 'HELP & FAQ' are in the center. A search bar contains the text 'occupational therapy' and a search icon. A callout box points to the 'SEARCH' tab in the navigation menu, stating 'Select the Simple Search tab.' Another callout box points to the search bar, stating 'Enter key term(s) in the search box, e.g. Occupational Therapy.' Below the search bar, the search results are displayed. On the left, there are filters for 'ACCESS TYPE' (with a checkbox for 'Only show content I have full access to'), 'PUBLICATION DATE' (with a date range from 1996 to 2020), and 'AUTHOR' (listing Roller, Louis; Gowan, Jenny; Hill, Joanna; O'Sullivan, Cross). The main results area shows '1 - 20 of 3984 results for "occupational therapy"'. A 'Sort by: Relevance' dropdown is visible, with a callout box stating 'Use the "Sort by" function to arrange the order of your search results.' The first result is 'Australian occupational therapy : origins and directions.' by M. Dibden; L. Zakrzewski; J. Higgs, published in 'Focus on Health Professional Education' on 01 December 2002. The second result is from the 'New Zealand Journal of Occupational Therapy' on 01 March 2011. Callouts also point to the 'ADVANCED SEARCH' link and the 'Sort by' dropdown.

Search Tips

Boolean searches

Use Boolean operators AND, OR and NOT within search fields

AND relationship is assumed between search terms by default unless another operator is specified

Searching for authors

To find multiple authors, separate each author name with AND or OR

AND finds content that is co-authored; OR finds content authored by any authors entered

Searching for phrases

To find an exact phrase match, use quotation marks around your phrase; e.g. searching for "civil war" finds content containing that exact phrase
