## Health Services

### Medical Care and Insurance

#### Access to specialist care or hospitalisation:

When specialist care and hospitalisation are required, you can consider using the services provided at public clinics and general wards of government hospitals. The charge for those holding a Hong Kong Identity (HKID) Card is subsidised. Non-local students without a HKID card are required to pay full fees for services and hospitalisation in government hospitals.

For details of the fees charged by government hospitals, please visit [www.ha.org.hk](http://www.ha.org.hk) (Services Guides → Fees and Charges).

#### Insurance:

Non-local students who are going to spend more than 180 days in Hong Kong are eligible to apply for a Hong Kong Identity (HKID) Card. As it takes time to obtain the HKID card, you are strongly advised to get your own medical insurance to cover your first month of stay.

Many insurance policies are strictly on a reimbursement basis. Non-local students, even with insurance coverage, may have to settle the medical bill first before you can claim reimbursement. It is important for you to check carefully with your insurance company on the extent of coverage and claim procedures, and set aside a sum of money for contingencies.

Non-local students are advised to purchase Personal Accident Insurance for the coverage of personal activities and living in Hong Kong.

## Short-Term Accommodation Listing

It is not always possible to secure a rental flat before arrival. You may wish to come earlier to look for a rental flat before the term starts. In that case, you will need to book for short-term accommodation, say a few days in a guest house or hotel. It is advisable to make the booking in advance. Depending on the market situation, and your personal preference, at least one week is needed to find a rental flat, get it furnished, and settle down.
