## 護理學高級文憑 (社會福利署)

In view of the rising demand for Enrolled Nurses (ENs) in the welfare sector, the Social Welfare Department has commissioned Tung Wah College provide fully-subsidised places for the Higher Diploma in Nursing programme. This two-year programme equips students with professional nursing knowledge and skills, including a minimum of 1,600 hours of clinical practicum. Students will be required to sign an undertaking and committed to be employed as ENs (General) providing services in the welfare sector for a continuous period of not less than 3 years after successfully completed the programme.

### Programme Objectives

- To develop students' competence in health promotion, maintenance and restoration, and prevention of illness through the delivery of primary, secondary and tertiary health care, especially in community settings;
- To equip students with effective communication skills for providing individualised care and for fostering teamwork;
- To develop student's understanding of psychosocial, cultural and environmental dimensions of health and illness;
- To equip students with critical, creative and analytical problem-solving skills; and
- To foster the development of students' general qualities for all-roundness, such as the capacity for lifelong learning, independent and reflective learning, and professionalism-related values.

### Professional Recognition

- The programme is recognised by The Nursing Council of Hong Kong (NCHK) as a pre-enrolment nursing training programme. Graduates are eligible to apply for enrolment as Enrolled Nurses (EN) (General) “登記護士 (普通科)” under the Nurses Registration Ordinance (Cap 164) of Hong Kong.

### Career Prospects and Further Studies

- Upon completing this programme and obtaining the qualification of Enrolled Nurse (General), students are required to work in welfare sector for a continuous period of no less than three years.
- Graduates are equipped to embark on fulfilling roles within various healthcare settings, including hospitals, clinics, nursing homes, and community health centers. They play a pivotal role in providing direct patient care, administering medications, and collaborating with multidisciplinary teams to ensure comprehensive healthcare delivery.
- Experienced graduates can practise in different areas such as medical, surgical, pediatrics or geriatric care, tailoring their career paths to their interests and strengths.
- Graduates can pursue further education, such as a Bachelor's degree in Nursing or related fields, can expand their knowledge base, enhance critical thinking skills, and open up avenues for career advancement, including opportunities in leadership, research, teaching, or advanced clinical practice.
