## Message from the President

A warm welcome to you!

Tung Wah College (TWC) is a young and reputable self-financing tertiary institution, with a mission to provide quality tertiary education to nurture competent, socially responsible and caring professionals for the benefits of society. Since its inception in 2010, TWC has been growing rapidly and its student population is now over 2,800.

To cater for its rapid development, the College set up a new campus (located next to Kwai Hing MTR Station) in September 2019. The Kwai Hing Campus is equipped with advanced teaching and learning facilities such as the Nursing Clinical Simulation Training Laboratory, lecture theatre, learning resources centre, computer laboratory and classrooms. Meanwhile, the College has also set out a plan to achieve the private university status in coming years. Towards this target, we are conducting the Programme Area Accreditation (PAA) exercises and looking for a permanent additional campus to sustain our development.

In 2020/2021, TWC will offer 10 degree and 4 Higher Diploma programmes in several disciplines. These programmes not only gain wide academic and professional recognition, but also have the following arrangements of tuition fee subsidy and scholarship for the students:

- a) There are 5 degree programmes (i.e. Nursing, Medical Laboratory Science, Occupational Therapy, Radiation Therapy, and Physiotherapy) and 2 Higher Diplomas (Nursing and Health Science) included in the Government's Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), which allows eligible students to enjoy an annual tuition fee subsidy of \$74,600 and \$37,300 for degree and sub-degree programmes respectively.
- b) The other 5 non-SSSDP degree programmes (namely Applied Gerontology, Early Childhood Education, Social and Business Sustainability, Medical Science, and Applied Psychology) are included in the Government's Non-means-tested Subsidy Scheme (NMTSS) and eligible students can receive an annual subsidy of \$31,300.
- c) Besides, TWC also offers entrance scholarships to cover all non-SSSDP degree and Higher Diploma programmes.

I believe that TWC's development, programmes and tuition fee aid arrangements would be appealing to those students who would like to develop their professional career for a bright future. Please make a wise choice to pursue your studies at TWC!

**Professor Yu-hon LUI, MH**

*President*

*October 2019*

# About Tung Wah College

TWC is a self-financing tertiary education institution established by Tung Wah Group of Hospitals (TWGHs) which is the oldest and largest charitable organisation in Hong Kong providing a wide range of medical and health, education and community services to fulfil the needs of the society. The College went through the Institutional Review (IR) by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) in 2010 and is registered under the Post-Secondary Colleges Ordinance (Cap. 320) as an approved self-financing degree granting institution.

Taking advantage of TWGHs' strengths and expertise in medical and health, education, and social services etc., TWC aspires to become a renowned privately-funded university, recognized for high quality programmes focusing on practical application for both for-profit and non-profit organisations, while nurturing youngsters to be caring citizens with a sense of social responsibility.

Currently the College offers degree and sub-degree programmes in diverse disciplines (including Social and Business Sustainability, Applied Psychology, Early Childhood Education, Forensic Science, Medical Laboratory Science, Radiation Therapy, Occupational Therapy, Physiotherapy, Nursing and Applied Gerontology etc.) through four Schools, namely School of Arts and Humanities, School of Management, School of Medical and Health Sciences, and School of Nursing. The College has a student population of over 2,800 and has nurtured over 2,500 graduates.

In 2020/2021, 5 degree programmes and 2 sub-degree programmes offered by TWC are included in the HKSAR Government's Study Subsidy Scheme for Designated Professions/Sectors (SSSDP):

- Bachelor of Health Science (Hons) in Nursing ^
- Bachelor of Science (Hons) in Medical Laboratory Science ^
- Bachelor of Science (Hons) in Occupational Therapy ^
- Bachelor of Science (Hons) in Radiation Therapy ^
- Bachelor of Science (Hons) in Physiotherapy ^
- Higher Diploma in Health Science
- Higher Diploma in Nursing

^ Application through JUPAS

Students taking these SSSDP degree/ sub-degree programmes in 2020/2021 are eligible for an annual subsidy of \$74,600 and \$37,300 respectively. Students admitted into other degree programmes are also eligible for the Government's non-means-tested subsidy. In 2019/2020, the Government's non-means-tested annual subsidy is \$31,300. The annual subsidy may vary in each academic year subject to the decision of the Education Bureau.

<b>Programme Leader</b>	Dr. Beeto Leung <i>BSocSc, MPhil in Psychology, CUHK</i> <i>PhD in Psychology, HKU</i>
<b>Medium of Instruction</b>	English
<b>Total No. of Credits</b>	120 credits

<b>BSSc(APsy) 4 years full-time</b>	
QF Level	5
QR registration no.	17/000512/L5
Validity period	01/09/2017 to 31/08/2022

Year	Tuition Fee (HK\$) (without subsidy)	Tuition Fee (HK\$) (with subsidy)*
Year 1	\$59,050	\$27,750
Year 2	\$59,050	\$27,750
Year 3	\$76,100	\$44,800
Year 4	\$76,100	\$44,800
Programme Total	\$270,300	\$145,100
Annual Average	\$67,575	\$36,275

<b>Senior Year Entry is available</b>
Associate degree / higher diploma holders may apply. Please refer to P.38 for details of the admission requirements.
<b>Tuition fee*</b>
First year of study: HK\$44,800 Total tuition fee: HK\$89,600

Tung Wah College will adjust the tuition fee of its programmes based on the Composite Consumer Price Index to be announced by the Government annually. Tuition fees are normally charged by two instalments per annum and are payable before the commencement of each semester. New students are required to settle the balance of the tuition fee for the first semester (i.e. after deducting deposit) upon programme registration in August. Students are required to pay additional fees for all retake/additional courses which would be charged at the rate of the normal cohort and be calculated by the number of credits to be taken. Please refer the details in the College's Fees Regulation at [https://www.twc.edu.hk/en/Administration\\_Units/fo/our\\_service/student-area](https://www.twc.edu.hk/en/Administration_Units/fo/our_service/student-area).

\* This represents the programme fee after deduction of subsidy of the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS). In 2019/2020 academic year, the annual subsidy is \$31,300. The annual subsidy amount may vary in each academic year subject to the decision by the Education Bureau.

<b>Entrance Scholarships for Year 1 Entry</b>
FULL scholarship (after deduction of the subsidy under NMTSS in the first year of study)
For year 1 students with a HKDSE score of 14 or above (4 core subjects + 1 elective subject)
<b>Guaranteed Overseas Study Visit</b>
At least 1 overseas study visit to widen students' exposure
<b>Guaranteed Internship</b>
At least 480 hours of discipline-related internship to learn the practical application of psychology at workplace (e.g. at TWGHs or other organisations)

<b>Entrance Scholarships for Senior Year Entry</b>
HK\$40,000
For senior year students with a cGPA 3.0 or above

## PROGRAMME DESCRIPTION

The programme aims to equip students with comprehensive theoretical and practical knowledge of psychology and enables them to apply this knowledge in social welfare, educational, healthcare and various work settings. The programme will also equip students with critical thinking, problem solving, and research skills necessary to conduct scientific studies. Students will develop their interpersonal competencies in self-awareness, appreciation and acceptance of individual differences and cultural diversity as well as their commitment to ethical and professional behaviours throughout the programme. Graduates can pursue careers in psychology and related fields as well as further study in professional areas of psychology.

## PROGRAMME STRUCTURE

<b>Language courses</b>	
Applied Chinese Language (or Basic Chinese)*	Developing English Language Skills
Advanced English Oral Communication Skills	Enhancing Academic English Skills
Advanced English Writing Skills	+ 1 Language elective course

\* Alternate Chinese course for "non-Chinese speaking" students only

Discipline courses	
Abnormal Psychology	Introduction to Counselling and Psychotherapy
Appreciating Social Research	Introduction to Politics and Public Administration
Biological Psychology	Introduction to Psychology
Capstone Project	Media, Culture and Society
Clinical Psychology	Personal Growth and Mental Health
Consumer Psychology in Social Media	Personality Theories and Individual Differences
Contemporary Issues in Modern Psychology	Psychological Assessments
Cognitive Psychology: Theories of How We Think	Rehabilitative Psychology
Crime and Deviance	Research Methods in Psychology
Developmental Psychology	Social Psychology: Dynamics between Individuals and Groups
Educational Psychology	Sociology Today
Gender, Love and Sexuality	Statistics for Social Sciences
Health and Positive Psychology	Transitions in Hong Kong Society
Industrial and Organizational Psychology	

General Education (GE) courses
The Development and Operation of Non-profit Organisations
+ 5 courses from the College's GE course list

## PROFESSIONAL RECOGNITION

Graduates are eligible to apply for membership of the Hong Kong Psychological Society (HKPS), British Psychological Society (BPS) and Australian Psychological Society (APS).

## CAREER PROSPECTS AND FURTHER STUDIES

Graduates are equipped with the knowledge, skills and values to work in social sciences/psychology related fields and settings such as social work and services, public relations and communications, politics, personnel, advertising, management and retail. They can also take up teaching and research due to their capacity for independent thinking, problem solving ability and highly developed interpersonal skills.

Graduates may also choose to further their studies in clinical, counselling, educational or organisational psychology or a professional in other specialised fields of psychology.

### STUDENTS'/ GRADUATES' SHARING

#### Anson Liu

- Graduate of Bachelor of Social Science (Honours) in Applied Psychology (2016)
- Currently a Senior Education Consultant at Amber Education

Throughout my 4 years of study, I was passionate about education as I realised what students and parents need and desire. The counselling skills I learned in the lectures help me to deal with conflicts between parents and their children in my workplace.

Entrance Scholarships
HK\$20,000
For students with a HKDSE score of 12 or above (2 core subjects + 3 elective subjects)
Guaranteed Overseas Study Visit
At least 1 overseas study visit to widen students' exposure
Direct Articulation
Directly articulate to senior year entry of the Bachelor of Social Science (Honours) programme upon completion of studies

Internship
At least 240 hours of full-time context-related internship

## PROGRAMME DESCRIPTION

The programme aims to equip students with foundational psychological knowledge and skills to develop a career in human services, especially in social welfare and healthcare settings. Students will learn the interaction between psychological and social factors in shaping psychological wellbeing, personal development and group behaviours. Graduates will be able to apply knowledge, communication and interpersonal skills, caring attitude as well as professional ethics to work in health and social care and related services. They can also pursue further study in psychology and other related disciplines.

## PROGRAMME STRUCTURE

Language courses	
Applied Chinese Language (or Basic Chinese)*	Enhancing Academic English Skills
Developing English Language Skills	

\* Alternate Chinese course for “non-Chinese speaking” students only

Discipline courses	
Advertising and Consumer Psychology	Introduction to Politics and Public Administration
Appreciating Social Research	Personal Growth and Mental Health
Cognitive Psychology: Theories of How We Think	Personality Theories and Individual Differences
Developmental Psychology	Psychosocial Dimensions of Health and Illness
Empowering Process in the Welfare Settings	Social Psychology: Dynamics between Individuals and Groups
Fundamental Skills to Counselling	Sociology Today
Introduction to Psychology	Statistics for Social Sciences

General Education (GE) courses	
The Development and Operation of Non-profit Organisations	+ 2 courses from the College's GE course list

## CAREER PROSPECTS AND FURTHER STUDIES

Graduates are equipped to enter the workforce at para-professional levels in human services. In particular, graduates can develop a career in health and social care services to provide supervised care to people in need, examples of posts include psychological service assistants, welfare workers, marketing assistants, human resource assistants and student development assistants. Graduates with satisfactory performance can articulate to senior year entry of the Bachelor of Social Science (Honours) in Applied Psychology at TWC, or bachelor's degree programmes at other institutions.

# Bachelor of Education (Honours) in Early Childhood Education

For senior year students with a cGPA 3.0 or above

## PROGRAMME DESCRIPTION

This programme provides students with transdisciplinary knowledge on how different organisations in the business and social sectors achieve both economic and social goals. Students learn how the following three types of organizations are able to simultaneously generate profits/surpluses and create social value:

- i Businesses practising corporate social responsibility (CSR) or creating shared value (CSV)
- ii Social enterprises
- iii Non-profit organisations

Given the programme's emphasis on experiential learning, students acquire skills to identify and analyse social problems, and work with communities to develop effective, sustainable solutions to these problems. Students also have opportunities to participate in work internships, capstone projects and overseas study tours

### STUDENTS' / GRADUATES' SHARING

#### WANG Ruoxi (Shandong)

The classmates in TWC are nice and willing to share their study skills and experiences with me. I believe that I would meet more passionate people in the coming years, who can enlighten me and enrich my study life here.

## PROGRAMME STRUCTURE

In line with the transdisciplinary focus of the programme, students take both core business courses, as well as social sustainability-related courses:

Language courses	
Applied Chinese Language (or Basic Chinese)*	Developing English Language Skills
Advanced English Oral Communication Skills	Enhancing Academic English Skills
Business Communication in English	+ 1 Language elective course

\* Alternate Chinese course for “non-Chinese speaking” students only

Discipline courses	
Achieving and Measuring Social Impact	Introduction to Economics
Business Ethics	Introduction to Psychology
Business Finance	Management and Organisational Behaviour
Business Statistics	Marketing Principles
Capstone Project	Marketing Research
Community Development	Non-Profit Leadership and Management
Corporate and Non-Profit Governance	Philanthropy and Foundation Management
Corporate Social Responsibility and Sustainability Management	Social and Legal Environment for Business
Digital Data Management	Social Entrepreneurship
Financial Accounting	Sociology Today
Financial Management for Non-Profit Organisations and Social Enterprises	Strategic Management in For-Profit and Non-Profit Organisations
Fundraising and Donor Relations	Understanding Social Problems and Policies
Innovation for Social Impact	Writing Business Plan, Proposal and Grant Application
International Development	+ 2 Discipline elective courses

General Education (GE) courses	
The Development and Operation of Non-Profit Organizations	+ 3 courses from the College’s GE course list

## UNIQUE PROGRAMME FEATURES

- Learn experientially how to:
  - Map communities’ aspirations, needs and assets
  - Use design thinking to develop innovative solutions to community problems
  - Use futures thinking to anticipate future challenges and to help shape a better future
  - Measure the social impact of organisational programmes and activities
- Gain practical experience through work internship and capstone project
- Participate in overseas study tours to appreciate how social problems are addressed in other countries

## CAREER OPPORTUNITIES

- A career in a social enterprise, NPO, or company with a CSR or CSV programme, taking on one of various possible job functions including:
  - Philanthropic fund raising
  - Community engagement
  - Business development
  - Communications and public relations
  - Marketing
  - Administration
  - Operations
- Alternatively, an opportunity to start up a social enterprise to address a social problem

# Bachelor of Medical Science (Honours)

Entrance Scholarships for Year 1 Entry
FULL scholarship (after deduction of the subsidy under NMTSS in the first year of study)
For year 1 students with a HKDSE score of 18 or above (4 core subjects + 1 elective subject)

Senior Year Entry is available		
Associate degree / higher diploma holders may apply. Please refer to P.38 for details of the admission requirements.		
Entrance Scholarships for Senior Year Entry		
HK\$40,000		
For senior year students with a cGPA 3.0 or above		
Tuition fee*		
	Basic Medical Sciences	Forensic Science
First year of study	HK\$65,050	HK\$66,121
Total tuition fee	HK\$130,100	HK\$132,241

Tung Wah College will adjust the tuition fee of its programmes based on the Composite Consumer Price Index to be announced by the Government annually. Tuition fees are normally charged by two instalments per annum and are payable before the commencement of each semester. New students are required to settle the balance of the tuition fee for the first semester (i.e. after deducting deposit) upon programme registration in August. Students are required to pay additional fees for all retake/additional courses which would be charged at the rate of the normal cohort and be calculated by the number of credits to be taken. Please refer the details in the College's Fees Regulation at [https://www.twc.edu.hk/en/Administration\\_Units/fo/our\\_service/student-area](https://www.twc.edu.hk/en/Administration_Units/fo/our_service/student-area).

\* This represents the programme fee after deduction of subsidy of the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS). In 2019/2020 academic year, the annual subsidy is \$31,300. The annual subsidy amount may vary in each academic year subject to the decision by the Education Bureau.

## PROGRAMME DESCRIPTION

The programme aims to prepare students with firm scientific knowledge and technical expertise. It also provides a scientific foundation for students who intend to pursue postgraduate studies in professional medical and health disciplines such as medicine, dentistry, chiropractic, veterinary science, nursing, physiotherapy etc.

## PROGRAMME STRUCTURE - Year 1

Language courses	
Applied Chinese Language (or Basic Chinese)*	Developing English Language Skills
Common core courses	
Biochemistry	Human Physiology
General Microbiology and Immunology	Introduction to Physics
Human Anatomy	Molecules, Cells and Genes
General Education (GE) courses	
Introduction to Health Informatics	The Development and Operation of Non-profit Organisations
Introduction to Statistics	Understanding and Motivating Self

\* Alternate Chinese course for "non-Chinese speaking" students only

## PROGRAMME STRUCTURE - Year 2-4

Language courses	
Advanced English Writing Skills	Enhancing Academic English Skills
English for Medical and Healthcare Purpose	+ 1 Language elective course

Specialised Courses of The Two Major Options	
Basic Medical Sciences Major	Forensic Science Major
Advanced Pathology	Analytical Chemistry
Aging, Diseases and Disabilities	Applied Chemistry
Basic Laboratory Techniques and Instrumentation	Basic Laboratory Techniques and Instrumentation
Basic Neuroscience	Biomedical Criminalistics
Complementary and Alternative Medicine	Computer Forensics and Digital Investigations
Epidemiology	Criminal and Crime Scene Investigation
Ethical and Legal Aspects in Health Care	Ethical and Legal Aspects in Health Care
General Pathology	General Pathology
Honours Year Project	Honours Project
Human Genetics	Human Genetics
Infectious Disease and Control	Introduction to Chinese Medicine
Introduction to Chinese Medicine	Introduction to Criminal Justice
Introduction to Medical Imaging	Introduction to Medical Imaging
Pathophysiology	Chemical Skills for Forensic Science
Pharmacology	Pathophysiology
Principles of Molecular Diagnostics	Pharmacology
Research Methods in Medical Science	Physical Evidence Analysis
+ 4 Discipline elective courses	Presentation of Forensic Evidence in Court
	Principles of Molecular Diagnostics
	Research Methods in Medical Science
	Techniques in Human Identification
	Toxicology

General Education (GE) courses	
Information Technology and Multimedia Applications	+ 1 course from the College's GE course list

## PROGRAMME-SPECIFIC REQUIREMENTS

Preference will be given to applicants who have obtained Level 2 or above for Integrated Science or Combined Science in HKDSE.

## CAREER PROSPECTS AND FURTHER STUDIES

Basic Medical Sciences students will be prepared as pre-professional graduates who can become eligible to enter Medicine, Dentistry, Chiropractry, Chinese Medicine and Veterinary Science in the region or overseas. They may also pursue research degrees (MPhil and PhD) to enter academic careers as they will have the attributes of fundamental laboratory skills, an inquisitive mind and problem-solving skills.

Opportunities for Forensic Science graduates will be available at the Hong Kong Police Force, the Fire Services, the Customs and the Excise Department, and the Agriculture, Fisheries and Conservation Department of the Hong Kong Government.

### STUDENTS'/ GRADUATES' SHARING

#### Kathie Chong

- Graduate of Bachelor of Medical Science (Honours) (2017)
- Currently working at Quality Health Care Medical Services

During my study at TWC, teachers encouraged and supervised us greatly to enhance and enrich our professional knowledge and skills. I worked at a medical-based company for the placement, which gave me a great opportunity to gain practical knowledge and strengthen my communication as well as management skills.

# Bachelor of Science (Honours) in Medical Laboratory Science

## 醫療化驗科學(榮譽)理學士

<b>Programme Leader</b>	Prof. Joseph Lee <i>BSc in Biochemistry, Hull, UK; PhD in Toxicology/Pathology, HKU Accredited Clinical Biochemist, Register of Department of Health Chartered Scientist and Chartered Chemist, UK Fellow, Hong Kong Society of Clinical Chemistry Fellow, National Academy of Clinical Biochemistry, USA Fellow, Royal Society of Chemistry, UK Registered Medical Laboratory Technologist (Part I), HK</i>
<b>Medium of Instruction</b>	English
<b>Total No. of Credits</b>	135 credits
<b>JUPAS Catalogue No.</b>	JSST02

Year	Tuition Fee (HK\$)
Year 1	\$62,675
Year 2	\$62,675
Year 3	\$62,675
Year 4	\$62,675
Programme Total	\$250,700
Annual Average	\$62,675

BSc(MLSc) 4 years full-time	
QF Level	5
QR registration no.	17/000003/L5
Validity period	01/09/2017 to 31/08/2022

Tung Wah College will adjust the tuition fee of its programmes based on the Composite Consumer Price Index to be announced by the Government annually. Tuition fees are normally charged by two instalments per annum and are payable before the commencement of each semester. New students are required to settle the balance of the tuition fee for the first semester (i.e. after deducting deposit) upon programme registration in August. Students are required to pay additional fees for all retake/additional courses which would be charged at the rate of the normal cohort and be calculated by the number of credits to be taken. Please refer the details in the College's Fees Regulation at [https://www.twc.edu.hk/en/Administration\\_Units/fo/our\\_service/student-area](https://www.twc.edu.hk/en/Administration_Units/fo/our_service/student-area). The tuition fee for the programme under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) is the net fee paid by a student after deduction of subsidy from the Government. In 2020/21 academic year, the annual subsidy under the SSSDP is \$74,600 for laboratory-based undergraduate programmes and \$37,300 for laboratory-based sub-degree programmes. The annual subsidy amount may vary in each academic year subject to the decision by the Education Bureau.

## PROGRAMME DESCRIPTION

The programme provides the foundation training for adopting a career in Medical Laboratory Science. The first year will mainly focus on General Education and foundation scientific learning. From the second year onwards, students will be taught the principles and practice of the 4 major sub-specialties of Medical Laboratory Science: Anatomical & Cellular Pathology, Chemical Pathology, Haematology & Transfusion Science, and Medical Microbiology & Virology. There will be a 12-week clinical practicum in the first semester of the fourth year during which students will receive practical training in public and/or private hospital medical laboratories. Graduates are eligible for registration as a Medical Laboratory Technologist “醫務化驗師” (Part II). This statutory registration is a prerequisite for employment in local public and private health services.

## PROGRAMME STRUCTURE

Language courses	
Applied Chinese Language (or Basic Chinese)*	Enhancing Academic English Skills
Developing English Language skills	
Discipline courses	
Aging, Diseases and Disabilities	Clinical Laboratory Haematology and Transfusion Science
Basic Laboratory Techniques and Instrumentation	Human Physiology
Biochemistry	Infectious Disease and Control
Clinical Immunology	Introduction to Chinese Medicine
Clinical Laboratory Cellular Pathology	Introduction to Health Informatics

\* Alternate Chinese course for “non-Chinese speaking” students only

Discipline courses	
Clinical Laboratory Chemistry and Immunochemistry	Introduction to Physics
Clinical Laboratory Medical Microbiology	Human Genetics
Clinical Practicum I (Clinical Chemistry)	Molecules, Cells and Genes
Clinical Practicum II (Haematology and Transfusion Science)	Molecular Diagnosis of Human Diseases
Clinical Practicum III (Anatomical and Cellular Pathology)	Pathophysiology
Clinical Practicum IV (Medical Microbiology)	Pharmacology
Ethical and Legal Aspects in Health Care	Principles of Molecular Diagnostics
General Microbiology and Immunology	Psychosocial Dimensions of Health and Illness
General Pathology	Research Methods in Medical Science
Honours Project in Medical Laboratory Science	Virology
Human Anatomy	

General Education (GE) courses	
Information Technology and Multimedia Applications	Understanding and Motivating Self
Introduction to Statistics	+ 2 courses from the College's GE course list
The Development and Operation of Non-profit Organisations	

## PROGRAMME-SPECIFIC REQUIREMENTS

- Applicants are expected to have studied Chemistry/Combined Science (including Chemistry) up to HKDSE level.
- Preference will be given to applicants who have obtained Level 4 or above for Chemistry or Combined Science (including Chemistry) in HKDSE.
- Preference will be given to applicants who have obtained Level 4 or above in English Language in HKDSE.
- The programme aims to provide students with training and knowledge for equipping them to be an efficient and effective healthcare worker. It is expected that prospective students should possess relevant foundation scientific knowledge in order to benefit from learning.
- Applicants should have normal colour vision, as this is usually required for employment in local medical laboratories.
- Applicants should be prepared to handle human samples, tissues and body fluids.

## PROFESSIONAL RECOGNITION

The programme is accredited by the Medical Laboratory Technologists Board of the Supplementary Medical Professions Council (SMPC). Graduates are qualified for registration as Medical Laboratory Technologists (Part II).

## CAREER PROSPECTS AND FURTHER STUDIES

The programme enables the graduates to be recognised and be gainfully employed in their professions. Graduates will mainly be employed by private and public medical laboratories, including those of the Department of Health, the Hospital Authority, private hospitals and clinics.

For those graduates who are interested in pursuing further studies, they may choose to attend graduate school in local or overseas institutions for higher degrees (Master or Doctoral).

## STUDENTS'/ GRADUATES' SHARING

### Michelle Chan

- Graduate of Bachelor of Science (Honours) in Medical Laboratory Science (2017)
- Currently an Associate Medical Technologist at United Christian Hospital

Laboratories in TWC are well equipped as those of hospitals. During clinical practicum, I developed practical clinical laboratory skills, time management and multi-tasking skills that a medical technologist should possess. Thanks to TWC that I am able to adapt quickly in work and develop my career.

# Bachelor of Science (Honours) in Radiation Therapy

## 放射治療學(榮譽)理學士

<b>Programme Leader</b>	Prof. Maria Law <i>PhD, Chinese Academy of Science, Registered Radiographers (Part I)</i>

Year 1	\$68,250
Year 2	\$68,250
Year 3	\$66,200
Year 4	\$66,200
Programme Total	\$268,900
Annual Average	\$67,225

<b>Senior Year Entry is available</b>
For Senior Year Level entry, applicants should: (i) have completed a BSc in Radiography or Medical Imaging; OR (ii) have obtained equivalent qualifications.
<b>Tuition fee</b>
First year of study: \$140,800 Total tuition fee: \$281,600

Tung Wah College will adjust the tuition fee of its programmes based on the Composite Consumer Price Index to be announced by the Government annually. Tuition fees are normally charged by two instalments per annum and are payable before the commencement of each semester. New students are required to settle the balance of the tuition fee for the first semester (i.e. after deducting deposit) upon programme registration in August. Students are required to pay additional fees for all retake/additional courses which would be charged at the rate of the normal cohort and be calculated by the number of credits to be taken. Please refer the details in the College's Fees Regulation at [https://www.twc.edu.hk/en/Administration\\_Units/fo/our\\_service/student-area](https://www.twc.edu.hk/en/Administration_Units/fo/our_service/student-area). The tuition fee for the programme under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) is the net fee paid by a student after deduction of subsidy from the Government. In 2020/21 academic year, the annual subsidy under the SSSDP is \$74,600 for laboratory-based undergraduate programmes and \$37,300 for laboratory-based sub-degree programmes. The annual subsidy amount may vary in each academic year subject to the decision by the Education Bureau.

## PROGRAMME DESCRIPTION

The programme provides the foundation training for adopting a career in Radiation Therapy. The first year will mainly concentrate on General Education and some fundamental scientific learning in Radiotherapy. From the second year onwards, students will be taught topics related to the practice of radiation therapy technology e.g. radiation oncology, radiotherapy techniques, radiotherapy physics and equipment, radiation safety and radiobiology. Students are required to complete 36 weeks of clinical practicum which spreads throughout Year 2 to Year 4. Graduates are eligible for registration as a Radiographer (Therapeutic) “放射技師（治療類）” (Part II). This statutory registration is a prerequisite for employment in public and private radiotherapy practice in Hong Kong.

## PROGRAMME STRUCTURE

<b>Language courses</b>	
Applied Chinese Language (or Basic Chinese)*	Enhancing Academic English Skills
Developing English Language Skills	

\* Alternate Chinese course for “non-Chinese speaking” students only

<b>Discipline courses</b>	
Advanced Radiotherapy Techniques and Management	Introduction to Medical Imaging
Basic Engineering Physics and Radiotherapy Equipment	Introduction to Physics
Biochemistry	Introduction to Statistics
Clinical Studies I	Molecules, Cells and Genes
Clinical Studies II	Patient Care in Radiotherapy Practice
Clinical Studies III	Psychosocial Dimensions of Health and Illness

Discipline courses	
Clinical Studies IV	Radiation Physics
Clinical Studies V (12 weeks of 4 days each)	Radiation Protection and Safe Practice
Computed Tomography	Principles Oncology and Radiotherapy
Contemporary Cancer Therapy	Radiation Oncology and Radiotherapy Techniques II
Ethical and Legal Aspects in Health Care	Radiobiology
General Microbiology and Immunology	Radiographic Imaging Science
General Pathology	Radiotherapy Honours Project
Human Anatomy	Radiotherapy Patient Management
Human Physiology	Radiotherapy Planning and Dosimetry
Imaging Anatomy	+ 2 Discipline elective courses
Introduction to Health Informatics	
Introduction to Magnetic Resonance Imaging	

General Education (GE) courses	
Information Technology and Multimedia Applications	Understanding and Motivating Self
The Development and Operation of Non-profit Organisations	+ 1 course from the College's GE course list

## PROGRAMME-SPECIFIC REQUIREMENTS

- Applicants must have obtained Level 3 or above in one science-related Elective / Applied Learning subject in HKDSE.
- Preference will be given to applicants who have obtained Level 3 or above in Physics / Integrated Science / Combined Science with Physics in HKDSE.
- Preference will be given to applicants who have obtained Level 4 or above in English Language in HKDSE.
- Applicants need to be screened for normal colour vision.

## PROFESSIONAL RECOGNITION

The programme has received accreditation from the Radiographers Board of the Supplementary Medical Professions Council (SMPC) in August 2016. Graduates are qualified for registration as Radiographers (Therapeutic Stream) (Part II).

## CAREER PROSPECTS AND FURTHER STUDIES

The programme enables the graduates to be recognised and be gainfully employed in their professions. Graduates will mainly be employed by public or private hospitals. The rich programme curriculum enables graduates to further study in local and overseas master programmes in medical imaging and radiation science, medical physics and healthcare management.

### STUDENTS'/ GRADUATES' SHARING

#### Amy Cheng

- Graduate of Bachelor of Science (Honours) in Radiation Therapy (2017)
- Currently a Radiation Therapist at Hong Kong Sanatorium & Hospital

With 4 years of training at TWC, I am confident to be a qualified radiation therapist. I find job satisfaction from providing excellent care to patients and making them feel warm and cared throughout the radiation therapy treatment.

# Bachelor of Science (Honours) in Occupational Therapy

The tuition fee for the programme under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) is the net fee paid by a student after deduction of subsidy from the Government. In 2020/21 academic year, the annual subsidy under the SSSDP is \$74,600 for laboratory-based undergraduate programmes and \$37,300 for laboratory-based sub-degree programmes. The annual subsidy amount may vary in each academic year subject to the decision by the Education Bureau.

## PROGRAMME DESCRIPTION

The programme aims to provide students with foundational training in occupational therapy. Through professional administration of assessment and therapeutic occupational activities, people with psychosocial, physical or cognitive dysfunctions, developmental disabilities or post-traumatic experiences can develop, regain or maintain their life functioning and fully participate in their home and community.

## PROGRAMME STRUCTURE

Language courses	
Chinese Language Elective I	Enhancing Academic English Skills
Developing English Language Skills	English for Healthcare Professionals

Discipline courses	
Ageing and Diseases	Clinical Education IB
Applied Research Methodology in Rehabilitation Science	Clinical Education II
Anatomy and Physiology	Clinical Education III
Analyzing Occupational Performance	Clinical Education IV
Basic Neurosciences	Enabling Occupation - Aging and Wellness
Capstone Project	Essential Pathophysiology for Occupational Therapist
Clinical Education IA	Essential Psychopathology for Occupational Therapist
Enabling Occupation - Child and Education II	Human Development Across Lifespan

Discipline courses	
Enabling Occupation - Child Education I	Health Service Management for Rehabilitation Professions
Enabling Occupation - Health Care I	Introduction to Chinese Medicine (中醫學導論)
Enabling Occupation - Health Care II	Introduction to Psychology
Enabling Occupation - Health Care III	OT Theory and Process I
Enabling Occupation - Productivity	OT Theory and Process II
Ethical and Legal Aspects of Rehabilitation	Psychosocial Dimensions of in Healthcare Practice
Functional Human Anatomy	Therapeutic Communication
	+ 2 Discipline elective courses

General Education (GE) courses	
Functional Human Anatomy	The Development and Operation of Non-profit Organisations
Introduction to Statistics	+ 2 courses from the College's GE course list

## PROGRAMME-SPECIFIC REQUIREMENTS

- Preference will be given to applicants who have obtained Level 3 or above in Biology or Combined Science (Biology) in HKDSE.
- Preference will be given to applicants who have obtained Level 4 or above in English Language in HKDSE.
- Preference for interview invitation will be given to selected candidates who place the programme as their Band A choices in JUPAS.

## PROFESSIONAL RECOGNITION

The programme has received accreditation from the Occupational Therapists Board of the Supplementary Medical Professions Council (SMPC) in June 2017. Graduates are eligible to apply for registration as Occupational Therapists “職業治療師” (Part II) for practice in Hong Kong.

The programme is also approved by the World Federation of Occupational Therapists (WFOT). Graduates are recognized as meeting the international standard for education of Occupational Therapists.

## CAREER PROSPECTS AND FURTHER STUDIES

Graduates can provide occupational therapy services to clients with diverse conditions in hospitals, social service settings, schools, private clinics, nursing homes, and in the community. The well-balanced curriculum of the programme enhances the opportunity of the graduates for further study in local and overseas postgraduate programmes in occupational therapy, rehabilitation sciences, health and medical sciences, social sciences, and healthcare management.

## STUDENTS'/ GRADUATES' SHARING

### Siu-Cho Chan

- Graduate of Bachelor of Science (Honours) in Occupational Therapy (2019)
- Currently an Occupational Therapist at SAHK B.M. Kotewall Memorial School

Apart from acquiring knowledge about rehabilitation sciences in TWC, I also gained a lot of clinical experience in various placement settings, including hospital and community settings during my four years of training in TWC. I am now working as occupational therapist in a special school for children with physical disabilities. I am glad that I can apply what I have learnt in the College to restore my clients' functionality and increase their independence in daily life.

# Bachelor of Science (Honours) in Physiotherapy

The tuition fee for the programme under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) is the net fee paid by a student after deduction of subsidy from the Government. In 2020/21 academic year, the annual subsidy under the SSSDP is \$74,600 for laboratory-based undergraduate programmes and \$37,300 for laboratory-based sub-degree programmes. The annual subsidy amount may vary in each academic year subject to the decision by the Education Bureau.

## PROGRAMME DESCRIPTION

The programme aims to nurture students to become professional physiotherapists with a caring attitude, strong communication and leadership skills, commitment for lifelong learning and an ability to serve the healthcare needs in the community. The program content is matched to the requirements of the local registration board and international entry-level physiotherapy education standards. In addition to lectures, we teach physiotherapy core courses through small group teaching, utilising both specialised laboratories and real clinical settings. The programme includes over 1,000 hours of clinical placements in different settings such as hospital in-patient and out-patient departments, as well as community-based rehabilitation centres.

## PROGRAMME STRUCTURE

Language courses	
Applied Chinese Language (or Basic Chinese)*	English for Healthcare Professionals
Advanced English Writing Skills	Enhancing Academic English Skills
Developing English Language Skills	Putonghua (or Putonghua for Non-Chinese Speaking Students)

\* Alternate Chinese course for non-Cantonese speaking students only

Discipline courses	
Advanced Technology and Health Informatics	Movement Science and Kinesiology
Applied Exercise Science	Orthopaedics, Traumatology and Rheumatology
Assessment and Evaluation in Physiotherapy	Pharmacology
Capstone Project	Physiotherapy in Cardiorespiratory Context I
Chinese Therapeutics and Acupuncture	Physiotherapy in Cardiorespiratory Context II
Clinical Neuroscience	Physiotherapy in Mental Health

Discipline courses	
Clinical Practicum I	Physiotherapy in Musculoskeletal Context I
Clinical Practicum II	Physiotherapy in Musculoskeletal Context II
Clinical Practicum III	Physiotherapy in Musculoskeletal Context III
Clinical Practicum IV	Physiotherapy in Musculoskeletal Context IV
Clinical Practicum V	Physiotherapy in Neurological Context I
Clinical Practicum VI	Physiotherapy in Neurological Context II
Functional Anatomy for Physiotherapy	Physiotherapy in Paediatrics and Developmental Disabilities
Healthcare System and Management	Primary Health Care and Community-based Rehabilitation
Human Anatomy	Rehabilitation in Older People
Human Development across Life Span	Rehabilitation Psychology
Human Physiology	Research Methods and Statistics
Introduction to Physiotherapy and Professional Ethics	Science and Practice of Electrotherapy

General Education (GE) courses	
The Development and Operation of Non-Profit Organizations	+ 2 elective courses from the College's GE course list

## PROGRAMME-SPECIFIC REQUIREMENTS

- Preference will be given to applicants who have obtained Level 3 or above in Biology or Physics or Level 3 in Combined Science (Biology and Physics) in HKDSE.
- Preference will be given to applicants who have obtained Level 4 or above in English Language in HKDSE.
- Preference for interview invitation will be given to selected candidates who place the programme as their Band A/B choices in JUPAS.

## PROFESSIONAL RECOGNITION

The programme is accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications for a period from 1 September 2018 to 31 August 2023, and is approved by the Chief Executive-in-Council.

The College is currently seeking professional accreditation of the programme from the Physiotherapists Board of the Supplementary Medical Professions Council (SMPC) for the purpose of registration under Section 12(1)(a) of the Supplementary Medical Professions Ordinance. The professional accreditation is on-going annually. The College anticipates that professional recognition will be granted before graduation of the first cohort of students.

## CAREER PROSPECTS AND FURTHER STUDIES

After obtaining the registration with the Physiotherapists Board of Hong Kong, graduates will be able to work in the Hospital Authority, subvented non-governmental organisations (e.g. rehabilitation services, elderly services, community centres, sheltered workshops and special childcare centres), the Education Bureau (special schools, early childhood education and training centres), and private organisations (e.g. private hospitals, private clinics, nursing homes and homes for the elderly).

For further studies, graduates will be eligible to articulate to higher degrees in research such as Master of Philosophy (MPhil)/ Doctor of Philosophy (PhD), or enrol in taught Master degree programmes in Physiotherapy locally and overseas.

# Higher Diploma in Health Science

## 健康科學高級文憑

The tuition fee for the programme under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) is the net fee paid by a student after deduction of subsidy from the Government. In 2020/21 academic year, the annual subsidy under the SSSDP is \$74,600 for laboratory-based undergraduate programmes and \$37,300 for laboratory-based sub-degree programmes. The annual subsidy amount may vary in each academic year subject to the decision by the Education Bureau.

## PROGRAMME DESCRIPTION

The programme provides opportunities for young people to enter health service industries from a pre-professional level. It is unique in terms of combining the clinical skills with laboratory skills in a two-year training and supporting employment for positions of clinical assistant and laboratory assistant in public/private clinics and medical/ life science laboratories. Moreover, this programme reinforces academic components in biomedical science so that graduates may articulate to a degree programme in medical and health disciplines such as medical science, nursing and other related disciplines.

## PROGRAMME STRUCTURE

Language courses	
Applied Chinese Language (or Basic Chinese)*	Developing English Language Skills
Enhancing Academic English Skills	1 Language elective <sup>#</sup>

\* Alternative Chinese course for "non-Chinese speaking" students only.

<sup>#</sup> To be either Advanced English Writing Skills or Putonghua.

Discipline courses	
Basic Laboratory Techniques and Instrumentation	Human Anatomy
Biochemistry	Human Physiology
Communication in Healthcare Settings	Infectious Disease and Control
Ethical and Legal Aspects in Health Care	Introduction to Health Informatics
Fundamentals of Nursing I	Molecules, Cells and Genes
General Microbiology and Immunology	Pathophysiology
General Pathology	Pharmacology

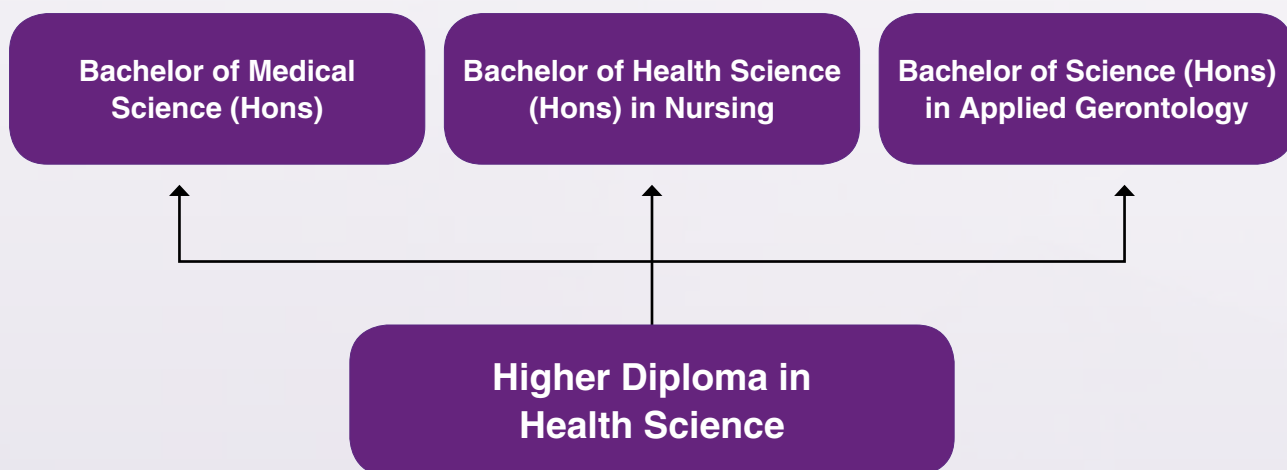

General Education (GE) courses	
The Development and Operation of Non-profit Organisations	+ 1 course from the College's GE course list

## CAREER PROSPECTS AND FURTHER STUDIES

Graduates will be equipped with skills and knowledge supporting employment from pre-professional positions such as clinical assistants and laboratory assistants.

Graduates will also be eligible to pursue study in bachelor's degree programme through Senior Year Entry in Medical Science, Nursing and Applied Gerontology offered by Tung Wah College and medical and health related programmes offered by other local or overseas institutions.

# Bachelor of Health Science (Honours) in Nursing

## 護理學(榮譽)健康科學學士

<b>Programme Leader</b>	Dr. Anson Tang <i>BSc in Nursing, PhD in Nursing, PolyU Registered Nurse (HK)</i>

Validity period	01/09/2017 to 31/08/2023

Year	Tuition Fee (HK\$)*
Year 1	\$43,300
Year 2	\$43,300
Year 3	\$43,300
Year 4	\$43,300
Year 5	\$43,300
Programme Total	\$216,500
Annual Average	\$43,300

<b>Senior Year Entry is available</b>
Associate degree / higher diploma holders may apply. Please refer to P.38 for details of the admission requirements.
<b>Tuition fee<sup>^</sup></b>
First year of study: \$106,642 Total tuition fee: \$319,924

Tung Wah College will adjust the tuition fee of its programmes based on the Composite Consumer Price Index to be announced by the Government annually. Tuition fees are normally charged by two instalments per annum and are payable before the commencement of each semester. New students are required to settle the balance of the tuition fee for the first semester (i.e. after deducting deposit) upon programme registration in August. Students are required to pay additional fees for all retake/additional courses which would be charged at the rate of the normal cohort and be calculated by the number of credits to be taken. Please refer the details in the College's Fees Regulation at [https://www.twc.edu.hk/en/Administration\\_Units/fo/our\\_service/student-area](https://www.twc.edu.hk/en/Administration_Units/fo/our_service/student-area).

\* The tuition fee for the programme under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) is the net fee paid by a student after deduction of subsidy from the Government. In 2020/21 academic year, the annual subsidy under the SSSDP is \$74,600 for laboratory-based undergraduate programmes and \$37,300 for laboratory-based sub-degree programmes. The annual subsidy amount may vary in each academic year subject to the decision by the Education Bureau.

<sup>^</sup> This represents the programme fee after deduction of subsidy of the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS). In 2019/2020 academic year, the annual subsidy is \$31,300. The annual subsidy amount may vary in each academic year subject to the decision by the Education Bureau.

## PROGRAMME DESCRIPTION

The programme aims to prepare students for professional careers in nursing with competence to deliver high quality patient care and make significant contribution to the health of the community. The objectives are:

- (1) to develop students' competence in health promotion, maintenance and restoration, and prevention of illness through the delivery of primary, secondary and tertiary health care in various hospital and community settings;
- (2) to equip students with problem solving and clinical reasoning skills;
- (3) to equip students with effective communication skills for the delivery of individualized care as well as for facilitation of teamwork;
- (4) to provide students with experiential learning opportunities to facilitate integration of theory and practice in their chosen profession; and
- (5) to nurture students' all-roundness by expanding students' understanding and appreciation of other cultures and environment.

## PROGRAMME STRUCTURE

<b>Language courses</b>	
Advanced English Writing Skills	English for Healthcare Professionals
Applied Chinese Language (or Basic Chinese)*	Enhancing Academic English Skills
Developing English Language Skills	Putonghua

\* Alternate Chinese course for "non-Chinese speaking" students only

Discipline courses	
Advanced Pathophysiology	Fundamentals of Nursing II
Anatomy and Physiology	Health Assessment
Capstone Project	Integrative Care of People with Non-communicable Diseases
Care of Growing Children and Adolescents	Introduction to Human Biology
Care of Older People	Introduction to Health Informatics
Care of People with Communicable Diseases	Maternal and Infant Care
Care of People with Non-communicable Diseases (I)	Mental Health Nursing
Care of People with Non-communicable Diseases (II)	Microbiology
Care of People with Non-communicable Diseases (III)	Nursing Practicum I
Care of People with Non-communicable Diseases (IV)	Nursing Practicum II
Care of Vulnerable People	Nursing Practicum III
Chinese Medicinal Therapeutics in Nursing	Pathophysiology
Communication in Healthcare Settings	Pharmacology
Concepts of Health	Primary Care and Community Nursing
Creative and Critical Thinking	Psychosocial Dimensions of Health and Illness
Economics and Management in Health Care	Public Health
Ethical and Legal Aspects in Health Care	Research Methods in Health Care
Essential Concepts of Chinese Medicine	Trauma and Disaster Nursing
Fundamentals of Nursing I	

General Education (GE) courses	
The Development and Operation of Non-profit Organisations	+ 5 elective courses from the College's GE course list

## PROGRAMME-SPECIFIC REQUIREMENTS

- Preference will be given to applicants who have obtained Level 4 or above in English Language in HKDSE.
- Only applicants who have taken elective subjects under Category A will be considered.
- Applicants should be fluent in written English and Chinese, and in oral English and Cantonese.

## PROFESSIONAL RECOGNITION

Graduates are eligible to apply for the license of Registered Nurses “註冊護士” (RN) from The Nursing Council of Hong Kong (NCHK).

## CAREER PROSPECTS AND FURTHER STUDIES

Graduates can start their career in health and social care areas including hospital and community settings. In hospital, they can work at acute and non-acute units such as emergency department, operating room, paediatrics, medical and surgical units. In community setting, they can contribute to residential care services such as care of the elderly, care of the disabled. They can also work at family and child clinic, out-patient departments, ambulatory day-care centre etc. Graduates who wish to have career advancement as advanced practice nurse, nurse consultant, nurse manager, academic faculty member, researcher and etc. may pursue postgraduate studies in various areas such as master or doctoral degree in education, nursing, public health, social science, health service management etc.

## STUDENTS'/ GRADUATES' SHARING

### Hoi-ki Wong

- Graduate of Bachelor of Health Science (Hons) in Nursing (2017)
- Currently a Registered Nurse at Queen Elizabeth Hospital

Nursing is a tough profession. Thanks to all the professors and mentors in TWC, I could learn professional nursing skills and knowledge step by step, and most importantly, develop a caring heart for patients. Now I am a registered nurse and I have to handle many lives and deaths independently in the ward.

FULL scholarship  
 (after deduction of the subsidy under NMTSS in the first year of study)

For year 1 students with a HKDSE score of 14 or above  
 (4 core subjects + 1 elective subject)

### Entrance Scholarships for Senior Year Entry

HK\$40,000

For senior year students with a cGPA 3.0 or above

## PROGRAMME DESCRIPTION

The programme aims to nurture experts in gerontology to meet the challenges of ageing population in Hong Kong. It provides students with a full scope of theoretical knowledge in gerontology care, such as social gerontology, psychogerontology, public health, and health and social services planning and management.

In this programme, students would have experiential learning opportunities to apply gerontology and interdisciplinary theories in practice settings; and be equipped with the knowledge, skills, values and attitudes necessary for competent gerontological practice in diverse settings.

## PROGRAMME STRUCTURE

Language courses	
Advanced English Writing Skills	English for Social Sciences
Applied Chinese Language (or Basic Chinese)*	Enhancing Academic English Skills
Developing English Language Skills	Putonghua

\* Alternate Chinese course for "non-Chinese speaking" students only

Discipline courses	
Ageing, Family and Society	Formal and Informal Carers
Applied Gerontology Practicum I	Health and Positive Psychology
Applied Gerontology Practicum II	Health and Social Policy in an Ageing Society
Applied Psychology	Health and Social Service Planning and Delivery for Older People
Asset Management for Older People	Introduction to Age Related Changes
Basic Care for Older People	Introduction to Management
Capstone Project	Modern Technology for Older People
Chronic Illness Management	Public Health
Communication	Recreational Activities and Exercises for Older People
Comprehensive Assessment of Older People	Research Methods
Dementia Care	Small Business Management
Empowering Process in the Welfare Settings	+ 1 Discipline elective course
End-of-Life Care	
Ethical and Legal Aspects in Health and Social Care	
Food and Nutrition for Older People	

General Education (GE) courses	
The Development and Operation of Non-profit Organisations	+ 5 courses from the College's GE course list

## CAREER PROSPECTS AND FURTHER STUDIES

This programme provides an area of specialisation for graduates to work with ageing population in multiple sectors. Graduates will be equipped with knowledge and skills required to work directly with older people or at the interface between older people and their environments in diverse settings ranging from residential homes to day care facilities, social welfare agencies, aged-friendly housing estates, or within the silver market business.

Graduates will have ample opportunities to pursue a career in areas such as aged care policy development, direct practice in health and social services with older people, health promotion and community development, silver market business and social research. They may enter the workforce as project coordinators or officers, and can be promoted to a higher position or advance to management levels after accumulating working experience in the aged care services. Graduates can also start a small business in the emerging silver market.

### STUDENTS'/ GRADUATES' SHARING

#### Yeung King Lun

- Graduate of Bachelor of Science (Honours) in Applied Gerontology (2017)
- Currently working at Tung Wah Group of Hospitals

The Bachelor of Science (Honours) in Applied Gerontology programme helped me understand elderly with multiple angles and the ways we can work together to build a better community for senior citizens. I also had chances to communicate with different people during my internship in elderly centres, which equipped me to become a good coordinator in the workplace.

#### Wei ZiYi (Guangdong)

Nowadays, aging population has become a globalized issue, I am so glad to learn the related knowledge in the Bachelor of Science (Honours) in Applied Gerontology at Tung Wah College. I have learnt what challenges the elderly are facing, which enables me to gain a deeper understanding of age-related changes of the older people in the physiological, psychological as well as societal perspective. The preparation of the group project enables me to have a huge improvement in my communication skills and self-directed learning skills.

Year	Tuition Fee (HK\$)
Year 1	\$57,100
Year 2	\$57,100
Programme Total	\$114,200
Annual Average	\$57,100

Tung Wah College will adjust the tuition fee of its programmes based on the Composite Consumer Price Index to be announced by the Government annually. Tuition fees are normally charged by two instalments per annum and are payable before the commencement of each semester. New students are required to settle the balance of the tuition fee for the first semester (i.e. after deducting deposit) upon programme registration in August. Students are required to pay additional fees for all retake/additional courses which would be charged at the rate of the normal cohort and be calculated by the number of credits to be taken. Please refer the details in the College's Fees Regulation at [https://www.twc.edu.hk/en/Administration\\_Units/fo/our\\_service/student-area](https://www.twc.edu.hk/en/Administration_Units/fo/our_service/student-area). The tuition fee for the programme under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) is the net fee paid by a student after deduction of subsidy from the Government. In 2020/21 academic year, the annual subsidy under the SSSDP is \$74,600 for laboratory-based undergraduate programmes and \$37,300 for laboratory-based sub-degree programmes. The annual subsidy amount may vary in each academic year subject to the decision by the Education Bureau.

## PROGRAMME DESCRIPTION

The programme equips students with necessary knowledge, skills and attitude to meet the statutory requirements to enrol with the Nursing Council of Hong Kong (NCHK) as an Enrolled Nurse “登記護士” (EN). It will develop students' competence in health promotion, maintenance and restoration, and prevention of illness through the delivery of primary, secondary and tertiary health care in hospital and community settings; equip students with effective communication skills for the delivery of individualised care as well as for facilitation of teamwork; develop students' understanding of psychosocial, cultural and environmental dimensions of health and illness; equip students with critical, creative and analytical problem solving skills; and develop students' generic attributes for their all-roundness.

## PROGRAMME STRUCTURE

Language courses	
Applied Chinese Language (or Basic Chinese)*	Developing English Language Skills
Discipline courses	
Care of Adults	Creative and Critical Thinking
Care of Children and Adolescents	Ethical and Legal Aspects of Health Care
Care of Older Persons	Fundamentals of Nursing I
Care of Patients with Chronic Illness	Fundamentals of Nursing II
Clinical Practicum I (6 weeks)	Human Anatomy and Physiology
Clinical Practicum II (14 weeks)	Introduction to Mental Health Nursing
Clinical Practicum III (6 weeks)	Introduction to Research and Evidence-based Practice
Clinical Practicum IV (16 weeks)	Microbiology and Pharmacology
Communication in Healthcare Settings	Professionalism and Contemporary Nursing
Concepts of Health	+ 1 Discipline elective course*

\* Students can choose either “Rehabilitation and Adaptation in Ageing”, “Primary Care and Community Nursing” or “Introduction to Age Related Changes” as elective (discipline) in the programme.

## General Education (GE) courses

Applied Psychology

Applied Sociology

### PROGRAMME-SPECIFIC REQUIREMENTS

- Have obtained Level 2 in five HKDSE subjects including Chinese Language, English Language and Mathematics (“222+22”)

### PROFESSIONAL RECOGNITION

The programme is recognised by The Nursing Council of Hong Kong (NCHK) as a pre-enrolment nursing training programme. Graduates are eligible to apply for the enrolment as Enrolled Nurses (ENs) “登記護士” under the Nurses Registration Ordinance (Cap 164) of Hong Kong.

### CAREER PROSPECTS AND FURTHER STUDIES

After graduates have received their EN licenses, they may work in hospitals and residential care settings of the publicly and privately owned organisations as well as the non-profit organisations. Qualified ENs can become case managers if they are employed in the elderly care and rehabilitation services.

Graduates may also pursue a bachelor's degree programme in Nursing or other disciplines at TWC and other local or overseas institutions.

### STUDENTS'/ GRADUATES' SHARING

#### Chung-fu Chang

- Graduate of Higher Diploma in Nursing (2015)

It is my honour to study at TWC which is equipped with state-of-the-art teaching facilities and composed of a team of professional and experienced academic staff members.

<b>Programme Leader</b>	Ms. Olivia Po <i>BSc in Nursing, UBC, Canada; MNurs (Advanced Practice), HKU Post-registration Diploma in Health Care Education (Nursing), PolyU Registered Nurse</i>
<b>Medium of Instruction</b>	Chinese
<b>Total No. of Credits</b>	31 credits

Year	Tuition Fee (HK\$)*
Year 1	\$34,000
Year 2	\$34,000
Programme Total	\$68,000
Annual Average	\$34,000

D(HS) 2 years part-time	
QF Level	3
QR registration no.	19/001173/L3
Validity period	01/09/2019 to 31/08/2022

\* Upon completion of programme, tuition fee will be reimbursed by the Social Welfare Department.

### PROGRAMME DESCRIPTION

The programme equips students with the necessary knowledge, skills and attitude to give clients and their families the care and assistance needed to live in the residential care homes. The curriculum is designed based on the concepts of caring, safety, critical thinking and professional approach to practice. The objectives of the programme are:

- (1) to develop students' ability to provide personal care and assistance that cater to the individual needs and abilities of clients/residents;
- (2) to enhance students' communication skills for the delivery of personal care as well as for the facilitation of teamwork;
- (3) to develop students' understanding of the concepts of holistic care that promotes the client/resident's physical, psycho-social and spiritual health and wellbeing;
- (4) to facilitate student's development in analytical problem solving skills; and
- (5) to develop students' basic skills to practise in residential care homes for the elderly and persons with disabilities.

### PROGRAMME STRUCTURE

Language courses	
Fundamentals of the Chinese Language	Practical English for Healthcare Workers
Foundation English	

Discipline courses	
Integrated Course of Combined Health Worker (Module 1 - 5)	Residential Care – Elderly Persons (2)
Module 1 - Introduction to Elder Care	Rehabilitation care
Module 2 - Physical Care of Elderly	
Module 3 - Residential Care - Elderly Persons (1)	
Module 4 - Residential Care - Persons with Disabilities	
Module 5 - Residential Care Home Practicum	

General Education (GE) course
Creative and Critical Thinking

Note: The offering of the programme is subject to the announcement of the Social Welfare Department.

## PROGRAMME-SPECIFIC REQUIREMENTS

- A permanent resident of the HKSAR aged 17-29;
- Fluent in Cantonese and written Chinese;
- Be able to read and write simple English;
- Has successfully completed Form 5 education or any equivalent qualification that is recognised by the Education Bureau.

## PROFESSIONAL RECOGNITION

Students who have successfully completed the first year of the programme are eligible to apply for registration with the Social Welfare Department (SWD), HKSAR as a Health Worker “保健員” .

## CAREER PROSPECTS AND FURTHER STUDIES

Graduates may serve in residential care homes, day care centres, or healthcare clinics in the community. Those who want to pursue further study for career advancement to professional level are eligible to apply for the learning programme at QF level 4.

# General Admission Requirements

## DEGREE PROGRAMMES

### Year 1 Entry

For Year 1 entry to degree programmes, applicants should meet one of the following requirements:

1. Have obtained Level 3 in Chinese Language and English Language and Level 2 in Mathematics and Liberal Studies plus one Elective/Applied Learning Subject at Level 2 ("3322+2") in HKDSE; OR
2. Have passes in AS Use of English and AS Chinese Language and Culture plus one AL subject/two AS subjects in HKALE and Level 2 for Chinese Language and English Language plus passes in three other subjects in HKCEE; OR
3. Have obtained the International Baccalaureate (IB) Diploma with a minimum score of 24 and fulfilled the English language requirements:
  - i. Grade 4 or better in the Higher Level English Language (B Syllabus); or
  - ii. Grade 5 or better in the Standard Level English Language (B Syllabus); or
  - iii. Grade 4 or better in the Higher or Standard Level English Language (A1 or A2 Syllabus); or
  - iv. Grade 4 or better in the Standard Level English - Text and Performance; or
  - v. Grade 4 or better in the Standard Level English - Literature and Performance (A1 syllabus); OR
4. Have met the 2nd cut-off line of the respective province for admission to mainland key universities in the National Joint College Entrance Examination (JEE) and the scores of English Language is over 100 (普通高等學校聯合招生考試 (JEE,PRC) 達到所屬省市報讀第二批重點高校分數線以上及英語科達100分或以上) \*Or the "cut-off line for undergraduate studies" (for provinces and cities where the 1st and 2nd cut-off lines are combined) 或「本科批次」分數線 (適用於「本科一批」及「本科二批」合併為「本科批次」的省市); OR
5. Have obtained equivalent qualifications (such as meeting the admission requirements of a degree programme offered outside Hong Kong).

### Senior Year Entry

Individual undergraduate programmes admit students for senior year entry. Applicants should meet one of the following requirements:

1. Have completed an Associate Degree Programme (AD) or Higher Diploma Programme (HD) of the relevant subject/discipline; OR
2. Have obtained equivalent qualifications.

Students admitted to the Senior Year may be required to satisfactorily complete some bridging courses. The bridging courses can be Discipline courses or General Education courses offered in the first two years of the curriculum.

## SUB-DEGREE PROGRAMMES

### Year 1 Entry

For Year 1 entry to sub-degree programmes, applicants should meet one of the following requirements:

1. Have obtained Level 2 in five HKDSE subjects including Chinese Language and English Language ("22+222"). (Each applicant is allowed to use not more than two Applied Learning subjects in the application); OR
2. Have obtained a pass in one AL subject or passes in two AS subjects in HKALE and five passes in HKCEE including Chinese Language and English Language; OR
3. Have obtained a pass in one AL subject or passes in two AS subjects in HKALE and three passes in HKCEE plus Level 2 for Chinese Language and English Language; OR
4. Have successfully completed a Pre-Associate Degree programme; OR
5. Have successfully completed Diploma Yi Jin programme; OR
6. Have obtained equivalent qualifications; OR
7. Have reached the age of 21 or above.

(Note: Mainland applicants with National Joint College Entrance Examination (JEE) results will also be considered. 持普通高等學校聯合招生考試成績之內地申請人亦將予以考慮。)

## ALTERNATIVE CHINESE LANGUAGE (ACL) FOR NON-CHINESE SPEAKING STUDENTS

For non-Chinese speaking students, TWC accepts the following two alternative qualifications in Chinese Language (ACL):

- Students obtained the minimum grade in the Chinese Language under GCE, GCSE and IGCSE.

Examination	Subject	Minimum grade required
General Certificate of Education Examination (GCE) – (Advanced Level) (only UK accredited GCE will be considered)	Chinese Language	Grade E
General Certificate of Education Examination (GCE) – (Ordinary Level) (only UK accredited GCE will be considered)		Grade C
General Certificate of Secondary Education Examination (GCSE)		Grade 4 or C
International General Certificate of Secondary Education Examination (IGCSE)		Grade 4 or C

- Student obtained the grade “Attained”, “Attained with Distinction (I)” or “Attained with Distinction (II)” in the Applied Learning Chinese (ApL(C)). The recognition of the ApL subjects is as follows:
  - “Attained” is comparable to Level 2 in the HKDSE Examination, which is qualified to apply for Sub-Degree programmes only;
  - “Attained with Distinction (I)” is comparable to Level 3 in the HKDSE Examination, which is qualified to apply for BOTH Undergraduate and Sub-degree programmes;
  - “Attained with Distinction (II)” is comparable to Level 4 or above in the HKDSE Examination, which is qualified to apply for BOTH Undergraduate and Sub-degree programmes.

## Graduation Requirements

To be considered for the award of a qualification, a student shall:

- Have completed the minimum required credit units as prescribed for the programme with a Graduation Grade Point Average (gGPA) of at least 2.0;
- Have achieved GPA of 1.0 or above for all courses in the programme;
- Have satisfied the requirements of the graduation project / practicum, if any, as prescribed for the academic programme;
- Have completed the Work Integrated Learning Programme / Community Service programme, if any, as required by the programme; and
- Have attained a valid score of 6.0 in IELTS or equivalent (for degree level programmes only). (Students would be considered as having fulfilled the requirement if they have obtained a valid score in IELTS or equivalent at the commencement of the programme.)
