Message From The President

A warm welcome to you!

The mission of Tung Wah College (TWC) is to provide quality tertiary education and nurture youngsters to possess the qualities of “**T • W • C**” (i.e. **T**alent in relevant professions, **W**isdom in problem-solving and **C**ommitment to responsibilities) for the benefits of society. Since its establishment in 2010, the College has been developing very rapidly and now plays an important role in the self-financing tertiary education of Hong Kong.

Particularly, TWC has built up a niche in healthcare education and made remarkable achievements in several aspects to respond to the community needs, e.g.

- a. Training the greatest annual number of nursing graduates in Hong Kong
- b. Being the first and only self-financing institution offering professionally accredited degree programmes to train allied health professionals (e.g. Medical Laboratory Technologists, Occupational Therapists and Radiation Therapists) in Hong Kong
- c. Being the first self-financing institution registered under the Post-secondary Colleges Ordinance (Cap. 320) offering teacher training degree and sub-degree programmes in Early Childhood Education to train qualified kindergarten teachers and child care professionals
- d. Offering the first local BBA degree in Entrepreneurship

Currently, the College has 4 Schools offering a total of 16 degree and sub-degree programmes in diverse disciplines with a student population of over 2,500. In 2018/2019, TWC will continue to offer programmes in different disciplines covering both health care and non-health care areas. Out of these, the degree programmes in Nursing, Medical Laboratory Science, Occupational Therapy and Radiation Therapy are admitted into the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) and put under JUPAS for application. Students admitted to these programmes would be eligible for an annual subsidy of \$70,000 from the Government. Besides, students taking other degree programmes are also eligible for the Government’s non-means-tested subsidy of \$30,000 per year. The subsidies not only reduce students’ financial burden but also reflect the recognition of TWC programmes by the Government.

This Prospectus provides you with the information of TWC’s programmes, admission, learning supports (e.g. financial assistance, extra-curricular activities) and so on. We sincerely invite you to explore the opportunities in pursuing your studies at TWC and make a wise choice to create a bright future!

Professor Yu-hon LUI, MH

President

October 2017

About Tung Wah College

TWC is a self-financing tertiary education institution established by Tung Wah Group of Hospitals (TWGHs) which is the oldest and largest charitable organisation in Hong Kong providing a wide range of medical and health, education and community services to fulfil the needs of the society. The College went through the Institutional Review (IR) by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) in 2010 and is registered under the Post-Secondary College Ordinance (Cap. 320) as an approved self-financing degree granting institution.

Taking advantage of TWGHs' strengths and expertise in medical and health, education, and social services etc., TWC aspires to become a renowned privately-funded university, recognized for high quality programmes focusing on practical application for both for-profit and non-profit organisations, while nurturing youngsters to be caring citizens with a sense of social responsibility.

Currently the College offers degree and sub-degree programmes in diverse disciplines (including Psychology, Early Childhood Education, Accounting, Business, Entrepreneurship, Health Service Management, Forensic

Science, Medical Laboratory Science, Radiation Therapy, Occupational Therapy, Nursing and Applied Gerontology etc.) through four Schools, namely School of Arts and Humanities, School of Business, School of Medical and Health Sciences, and School of Nursing. The College has a student population of over 2,500 and has nurtured over 1,400 graduates.

In 2018/2019, TWC will have 4 degree programmes included in the HKSAR Government's Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) and put under JUPAS for application:

- Bachelor of Health Science (Hons) in Nursing
- Bachelor of Science (Hons) in Medical Laboratory Science
- Bachelor of Science (Hons) in Occupational Therapy
- Bachelor of Science (Hons) in Radiation Therapy

Students taking these programmes are eligible for an annual subsidy of \$70,000. Students admitted into other degree programmes are also eligible for the Government's non-means-tested subsidy of \$30,000 per year with effect from 2017/2018.

4 years full-time
QF Level 5

Programme Leader	Dr. Beeto Leung <i>PhD in Psychology, HKU, MPhil in Psychology, BSocSc, CUHK</i>
Medium of Instruction	English
Total No. of Credits	120 credits

Year	Tuition Fee (HK\$) (without subsidy)*	Tuition Fee (HK\$) (with subsidy)*
Year 1	\$55,700	\$25,700
Year 2	\$55,700	\$25,700
Year 3	\$74,350	\$44,350
Year 4	\$74,350	\$44,350
Programme Total	\$260,100	\$140,100
Annual Average	\$62,025	\$35,025

Senior Year Entry is available

Associate degree / higher diploma holders may apply. Please refer to P.41 for details of the admission requirements.

* Annual subsidy of HK\$30,000 under the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in HK.

Entrance Scholarships
HK\$30,000
For year 1 students with a HKDSE score of 15 or above (4 core subjects + 1 elective subject)
Guaranteed Internship
At least 480 hours of discipline-related internship to learn the practical application of psychology at workplace (e.g. at TWGHs and other organisations)
Guaranteed Overseas Study Visit
At least 1 overseas study visit to widen students' exposure

PROGRAMME DESCRIPTION

The programme aims to equip students with comprehensive theoretical and practical knowledge of psychology and enables them to apply this knowledge in social welfare, educational, healthcare and various work settings. The programme will also equip students with critical thinking, problem solving, and research skills necessary to conduct scientific studies. Students will develop their interpersonal competencies in self-awareness, appreciation and acceptance of individual differences and cultural diversity as well as their commitment to ethical and professional behaviours throughout the programme. Graduates can pursue careers in psychology and related fields as well as further study in professional areas of psychology.

PROGRAMME STRUCTURE

Language courses	
Applied Chinese Language (or Basic Chinese)*	Developing English Language Skills
Advanced English Oral Communication Skills	Enhancing Academic English Skills
Advanced English Writing Skills	+ One Language elective course

* Alternate Chinese course for "non-Chinese speaking" students only

Discipline courses	
Abnormal Psychology	Introduction to Counselling and Psychotherapy
Appreciating Social Research	Introduction to Politics and Public Administration
Biological Psychology	Introduction to Psychology
Capstone Project	Media, Culture and Society

Year 1	\$92,700	\$92,700	\$62,700	\$62,700
Year 2	\$92,700	\$93,730	\$62,700	\$63,730
Year 3	\$92,700	\$93,730	\$62,700	\$63,730
Year 4	\$92,700	\$93,730	\$62,700	\$63,730
Programme Total	\$370,800	\$373,890	\$250,800	\$253,890
Annual Average	\$92,700	\$93,472.5	\$62,700	\$63,472.5

Senior Year Entry is available

Associate degree / higher diploma holders may apply. Please refer to P.41 for details of the admission requirements.

* Annual subsidy of HK\$30,000 under the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in HK.

PROGRAMME DESCRIPTION

The programme aims to prepare students with firm scientific knowledge and technical expertise. It also provides a scientific foundation for students who intend to pursue postgraduate studies in professional medical and health disciplines such as medicine, dentistry, chiropractic, veterinary science, nursing, physiotherapy etc.

PROGRAMME STRUCTURE - Year 1

Language courses

Applied Chinese Language (or Basic Chinese)*

Developing English Language Skills

* Alternate Chinese course for "non-Chinese speaking" students only

Common core courses

Biochemistry

Human Physiology

General Microbiology and Immunology

Introduction to Physics

Human Anatomy

Molecules, Cells and Genes

General Education (GE) courses

Introduction to Health Informatics

The Development and Operation of Non-profit Organisations

Introduction to Statistics

Understanding and Motivating Self

PROGRAMME STRUCTURE - Year 2-4

Language courses	
Advanced English Writing Skills	Enhancing Academic English Skills
English for Medical and Healthcare Purpose	+ 1 Language elective course

Specialised Courses of The Two Major Options	
<p>Basic Medical Sciences Major</p> Advanced Pathology Aging, Diseases and Disabilities Basic Laboratory Techniques and Instrumentation Basic Neuroscience Complementary and Alternative Medicine Epidemiology Ethical and Legal Aspects in Health Care General Pathology Honours Year Project Human Genetics Infectious Disease and Control Introduction to Chinese Medicine Introduction to Medical Imaging Pathophysiology Pharmacology Principles of Molecular Diagnostics Research Methods in Medical Science + 4 Discipline elective courses	<p>Forensic Science Major</p> Analytical Chemistry Applied Chemistry Basic Laboratory Techniques and Instrumentation Biomedical Criminalistics Computer Forensics and Digital Investigations Criminal and Crime Scene Investigation Ethical and Legal Aspects in Health Care General Pathology Honours Project Human Genetics Introduction to Chinese Medicine Introduction to Criminal Justice Introduction to Medical Imaging Chemical Skills for Forensic Science Pathophysiology Pharmacology Physical Evidence Analysis Presentation of Forensic Evidence in Court Principles of Molecular Diagnostics Research Methods in Medical Science Techniques in Human Identification Toxicology

General Education (GE) courses	
Information Technology and Multimedia Applications	+ Select 1 course from the College's GE course list

PROGRAMME-SPECIFIC REQUIREMENTS

Preference will be given to applicants who have obtained Level 2 or above for Integrated Science or Combined Science in HKDSE.

CAREER PROSPECTS AND FURTHER STUDIES

Basic Medical Sciences students will be prepared as pre-professional graduates who can become eligible to enter Medicine, Dentistry, Chiropractic, Chinese Medicine and Veterinary Science in the region or overseas. They may also pursue research degrees (MPhil and PhD) to enter academic careers as they will have the attributes of fundamental laboratory skills, an inquisitive mind and problem-solving skills.

Opportunities for Forensic Science graduates will be available at the Hong Kong Police Force, the Fire Services, the Customs and the Excise Department, and the Agriculture, Fisheries and Conservation Department of the Hong Kong Government.

Bachelor of Science (Honours) in Medical Laboratory Science

醫療化驗科學(榮譽)理學士學位

4 years full-time
QF Level 5

Programme Leader	Prof. Joseph Lee <i>PhD in Toxicology/Pathology, HKU, BSc in Biochemistry, Hull University, UK Fellow, National Academy of Clinical Biochemistry, USA Fellow, Royal Society of Chemistry, UK Chartered Scientist and Chartered Chemist, UK Fellow, Hong Kong Society of Clinical Chemistry Accredited Clinical Biochemist, Register of Department of Health Registered Medical Laboratory Technologist (Part I), HK</i>
Medium of Instruction	English
Total No. of Credits	135 credits
JUPAS Catalogue No.	JSST02

Year	Tuition Fee* (HK\$)
Year 1	\$55,664
Year 2	\$55,664
Year 3	\$55,664
Year 4	\$55,664
Programme Total	\$222,656
Annual Average	\$55,664

* After deduction of annual subsidy of HK\$70,000 from the Government under Study Subsidy Scheme for Designated Professions / Sectors (SSSDP).

PROGRAMME DESCRIPTION

The programme provides the foundation training for adopting a career in Medical Laboratory Science. The first year will be devoted mainly to General Education and foundation scientific learning. From the second year onwards, students will be taught the principles and practice of the 4 major sub-specialties of Medical Laboratory Science: Anatomical & Cellular Pathology, Chemical Pathology, Haematology & Transfusion Science, and Medical Microbiology & Virology. There will be a 12-week clinical practicum at the end of the third year during which students will receive practical training in public and/or private hospital medical laboratories. Graduates are eligible for registration as a Medical Laboratory Technologist “醫務化驗師” (Part II). This statutory registration is a prerequisite for employment in local public and private health services.

PROGRAMME STRUCTURE

Language courses	
Applied Chinese Language (or Basic Chinese)*	Enhancing Academic English Skills
Developing English Language skills	

* Alternate Chinese course for “non-Chinese speaking” students only

Discipline courses	
Aging, Diseases and Disabilities	Clinical Laboratory Haematology and Transfusion Science
Basic Laboratory Techniques and Instrumentation	Human Physiology
Biochemistry	Infectious Disease and Control
Clinical Immunology	Introduction to Chinese Medicine
Clinical Laboratory Cellular Pathology	Introduction to Health Informatics
Clinical Laboratory Chemistry and Immunochemistry	Introduction to Physics

Discipline courses	
Clinical Laboratory Medical Microbiology	Human Genetics
Clinical Practicum I (Clinical Chemistry)	Molecules, Cells and Genes
Clinical Practicum II (Haematology and Transfusion Science)	Molecular Diagnosis of Human Diseases
Clinical Practicum III (Anatomical and Cellular Pathology)	Pathophysiology
Clinical Practicum IV (Medical Microbiology)	Pharmacology
Ethical and Legal Aspects in Health Care	Principles of Molecular Diagnostics
General Microbiology and Immunology	Psychosocial Dimensions of Health and Illness
General Pathology	Research Methods in Medical Science
Honours Project in Medical Laboratory Science	Virology
Human Anatomy	

General Education (GE) courses	
Information Technology and Multimedia Applications	Understanding and Motivating Self
Introduction to Statistics	+ Select 2 courses from the College's GE course list
The Development and Operation of Non-profit Organisations	

PROGRAMME-SPECIFIC REQUIREMENTS

- Applicants are expected to have studied Chemistry to HKDSE level.
- Preference will be given to applicants who have obtained Level 3 or above in Chemistry or Combined Science (Chemistry) in HKDSE.
- Applicants should have normal colour vision, as this is required for the employment in medical laboratory.
- Applicants should be prepared to handle human samples, tissues and body fluids.

PROFESSIONAL RECOGNITION

The programme is accredited by the Medical Laboratory Technologists Board of the Supplementary Medical Professions Council (SMPC). Graduates are qualified for registration as Medical Laboratory Technologists (Part II).

CAREER PROSPECTS AND FURTHER STUDIES

The programme enables the graduates to be recognised and be gainfully employed in their professions. Graduates will mainly be employed by private and public medical laboratories, including those of the Department of Health, the Hospital Authority, private hospitals and clinics.

For those graduates who are interested in pursuing further studies, they may choose to attend graduate school in local or overseas institutions for higher degrees (Master or Doctoral).

Bachelor of Science (Honours) in Radiation Therapy

放射治療科學(榮譽)理學士學位

4 years full-time
QF Level 5

Programme Leader	Prof. Maria Law <i>PhD, Chinese Academy of Science, Registered Radiographers (Part I)</i>
Medium of Instruction	English
Total No. of Credits	138 credits
JUPAS Catalogue No.	JSST03

Year	Tuition Fee* (HK\$)
Year 1	\$65,482
Year 2	\$65,482
Year 3	\$65,481
Year 4	\$65,481
Programme Total	\$261,926
Annual Average	\$65,481.5

Senior Year Entry is available

For Senior Year Level entry, applicants should:

- have completed a BSc in Radiography or Medical Imaging; OR
- have obtained equivalent qualifications.

* After deduction of annual subsidy of HK\$70,000 from the Government under Study Subsidy Scheme for Designated Professions / Sectors (SSSDP).

PROGRAMME DESCRIPTION

The programme provides the foundation training for adopting a career in Radiation Therapy. The first year will be devoted mainly for General Education and some fundamental scientific learning in Radiotherapy. From the second year onwards, students will be taught topics related to the practice of radiation therapy technology e.g. radiation oncology, radiotherapy techniques, radiotherapy physics and equipment, radiation safety and radiobiology. Students are required to complete 36 weeks of clinical practicum which spreads throughout Year 2 to Year 4. Graduates are eligible for registration as a Radiographer (Therapeutic) “放射技師(治療類)” (Part II). This statutory registration is a prerequisite for employment in public and private radiotherapy practice in Hong Kong.

PROGRAMME STRUCTURE

Language courses	
Applied Chinese Language (or Basic Chinese)*	Enhancing Academic English Skills
Developing English Language Skills	

* Alternate Chinese course for “non-Chinese speaking” students only

Discipline courses	
Advanced Radiotherapy Techniques and Management	Introduction to Medical Imaging
Basic Engineering Physics and Radiotherapy Equipment	Introduction to Physics
Biochemistry	Introduction to Statistics
Clinical Studies I	Molecules, Cells and Genes
Clinical Studies II	Patient Care in Radiotherapy Practice
Clinical Studies III	Psychosocial Dimensions of Health and Illness
Clinical Studies IV	Radiation Physics
Clinical Studies IV (12 weeks of 4 days each)	Radiation Protection and Safe Practice

Discipline courses	
Computed Tomography	Radiation Oncology and Radiotherapy
Contemporary Cancer Therapy	Radiation Oncology and Radiotherapy Technique II
Ethical and Legal Aspects in Health Care	Radiobiology
General Microbiology and Immunology	Radiographic Imaging Science
General Pathology	Radiotherapy Honours Project
Human Anatomy	Radiotherapy Patient Management
Human Physiology	Radiotherapy Planning and Dosimetry
Imaging Anatomy	+ 2 Discipline elective courses
Introduction to Health Informatics	
Introduction to Magnetic Resonance Imaging	

General Education (GE) courses	
Information Technology and Multimedia Applications	Understanding and Motivating Self
The Development and Operation of Non-profit Organisations	+ Select 1 course from the College's GE course list

PROGRAMME-SPECIFIC REQUIREMENTS

- Applicants must have obtained level 3 or above in Physics / Integrated Science / Combined Science (Physics) in HKDSE.
- Preference will be given to applicants who have obtained Level 4 or above in English Language in HKDSE;
- Applicants need to be screened for normal colour vision.

PROFESSIONAL RECOGNITION

The programme has received accreditation from the Radiographers Board of the Supplementary Medical Professions Council (SMPC) in August 2016. Graduates are qualified for registration as Radiographers (Therapeutic Stream) (Part II).

CAREER PROSPECTS AND FURTHER STUDIES

The programme enables the graduates to be recognised and be gainfully employed in their professions. Graduates will mainly be employed by public or private hospitals. The rich programme curriculum enables graduates to further study in local and overseas master programmes in medical imaging and radiation science, medical physics and healthcare management.

Bachelor of Science (Honours) in Occupational Therapy

職業治療學理學士(榮譽)學位

4 years full-time
QF Level 5

Programme Leader	Prof. Matthew Yau <i>PhD (Health Sciences) USyd, Australia, MSc (Hons) (Mental Health), UOW, Australia, MCom (Commerce), UNSW, Australia BAppSc (Occupational Therapy), Cumberland College of Health Sciences Occupational Therapist Registered, United States of America (OTR) Registered Occupational Therapist in Australia, New Zealand and Hong Kong</i>
Medium of Instruction	English
Total No. of Credits	136 credits
JUPAS Catalogue No.	JSST04

Year	Tuition Fee* (HK\$)
Year 1	\$64,980
Year 2	\$64,980
Year 3	\$64,980
Year 4	\$64,980
Programme Total	\$259,920
Annual Average	\$64,980

* After deduction of annual subsidy of HK\$70,000 from the Government under Study Subsidy Scheme for Designated Professions / Sectors (SSSDP).

PROGRAMME DESCRIPTION

Based on the standard set by the World Federation of Occupational Therapists (WFOT) for the education of occupational therapists and made relevant to the practice in Hong Kong context, the programme is designed to provide students with cross-disciplinary general knowledge including foundation courses in Health Sciences, language and general education (GE) courses. Discipline-based courses are provided to nurture foundation occupational therapy knowledge and skills and facilitate the integration of essential attitudes, skills and knowledge for practice in occupational therapy. Students will be required to complete at least 1,000 hours of clinical practicum in various settings.

PROGRAMME STRUCTURE

Language courses	
Applied Chinese Language (or Basic Chinese)*	Enhancing Academic English Skills
Developing English Language Skills	

* Alternate Chinese course for “non-Chinese speaking” students only

Discipline courses	
Ageing, Diseases and Disabilities	Essential Psychopathology for Occupational Therapist
Abnormal Psychology	Enabling Occupation - Aging and Wellness
Applied Research Methodology in Rehabilitation Science	Enabling Occupation - Child and Education
Anatomy and Physiology	Enabling Occupation - Community
Analyzing Occupational Performance	Enabling Occupation - Health Care I
Basic Neuroscience	Enabling Occupation - Health Care II

Discipline courses	
Capstone Project	Enabling Occupation - Productivity
Clinical Education IA	Introduction to Chinese Medicine (中醫學導論)
Clinical Education IB	Introduction to Health Service Management
Clinical Education II	Pharmacology
Clinical Education III	Psychosocial Dimensions of Health and Illness
Clinical Education IV	OT Theory, Process and Evidence-based Practice
Culturally Relevant Occupational Therapy	Understanding Occupation-People-Context
Developmental Psychology	+ 2 Discipline elective courses
Essential Pathophysiology for Occupational Therapist	

General Education (GE) courses	
Creative and Critical Thinking	Introduction to Statistics
Ethical and Legal Aspects in Health Care	The Development and Operation of Non-profit Organisations
Information Technology and Multimedia Applications	Understanding and Motivating Self
Introduction to Health Informatics	+ Select 1 course from the College's GE course list

PROGRAMME-SPECIFIC REQUIREMENTS

Preference will be given to applicants who have obtained Level 3 or above in Biology or Combined Science (Biology) in HKDSE.

PROFESSIONAL RECOGNITION

The programme has received accreditation from the Occupational Therapists Board of the Supplementary Medical Professions Council (SMPC) in June 2017. Graduates are qualified for registration as Occupational Therapists “職業治療師” for practice in Hong Kong.

The Programme is also approved by the World Federation of Occupational Therapists (WFOT). Graduates are recognized as meeting the international standard for education of Occupational Therapists.

CAREER PROSPECTS AND FURTHER STUDIES

Graduates can provide direct occupational therapy services to clients with diverse conditions in hospitals, social service settings, schools, private clinics, nursing homes, and in the community. The well-balanced curriculum of the programme enhances the opportunity of the graduates for further study in local and overseas postgraduate programmes in occupational therapy, rehabilitation sciences, health and medical sciences, social sciences, and healthcare management.

Bachelor of Health Science (Honours) in Nursing

護理學健康科學(榮譽)學士學位

5 years full-time
QF Level 5

Programme Leader	Dr. Anson Tang PhD in Nursing, <i>B.Sc. (Hons.) in Nursing, PolyU, Registered Nurse (HK)</i>
Medium of Instruction	English
Total No. of Credits	151 credits
JUPAS Catalogue No.	JSST01

Year	Tuition Fee* (HK\$)
Year 1	\$42,767
Year 2	\$42,767
Year 3	\$42,767
Year 4	\$42,767
Year 5	\$42,766
Programme Total	\$213,834
Annual Average	\$42,766.8

Senior Year Entry is available

Associate degree / higher diploma holders may apply. Please refer to P.41 for details of the admission requirements.

* After deduction of annual subsidy of HK\$70,000 from the Government under Study Subsidy Scheme for Designated Professions / Sectors (SSSDP),

PROGRAMME DESCRIPTION

The programme aims to prepare students for professional careers in nursing with competence to deliver high quality patient care and make significant contribution to the health of the community. The objectives are:

- (1) to develop students' competence in health promotion, maintenance and restoration, and prevention of illness through the delivery of primary, secondary and tertiary health care in various hospital and community settings;
- (2) to equip students with problem solving and clinical reasoning skills;
- (3) to equip students with effective communication skills for the delivery of individualized care as well as for facilitation of teamwork;
- (4) to provide students with experiential learning opportunities to facilitate integration of theory and practice in their chosen profession; and
- (5) to nurture students' all-roundness by expanding students' understanding and appreciation of other cultures and environment.

PROGRAMME STRUCTURE

Language courses	
Advanced English Writing Skills	English for Healthcare Professionals
Applied Chinese Language (or Basic Chinese)*	Enhancing Academic English Skills
Developing English Language Skills	Putonghua

* Alternate Chinese course for "non-Chinese speaking" students only

Discipline courses	
Advanced Pathophysiology	Fundamentals of Nursing II
Anatomy and Physiology	Health Assessment
Capstone Project	Integrative Care of People with Non-communicable Diseases
Care of Growing Children and Adolescents	Introduction to Human Biology

Discipline courses	
Care of Older People	Introduction to Health Informatics
Care of People with Communicable Diseases	Maternal and Infant Care
Care of People with Non-communicable Diseases (I)	Mental Health Nursing
Care of People with Non-communicable Diseases (II)	Microbiology
Care of People with Non-communicable Diseases (III)	Nursing Practicum I
Care of People with Non-communicable Diseases (IV)	Nursing Practicum II
Care of Vulnerable People	Nursing Practicum III
Chinese Medicinal Therapeutics in Nursing	Pathophysiology
Communication	Pharmacology
Concepts of Health	Primary Care and Community Nursing
Creative and Critical Thinking	Psychosocial Dimensions of Health and Illness
Economics and Management in Health Care	Public Health
Ethical and Legal Aspects in Health Care	Research Methods in Health Care
Essential Concepts of Chinese Medicine	Trauma and Disaster Nursing
Fundamentals of Nursing I	

General Education (GE) courses	
The Development and Operation of Non-profit Organisations	+ Select 5 elective courses from the College's GE course list

PROGRAMME-SPECIFIC REQUIREMENTS

- Preference will be given to applicants who have obtained Level 4 or above for English Language in HKDSE.
- Only elective subjects under Category A of HKDSE will be considered.
- Applicants should be fluent in written English and Chinese, and in oral English and Cantonese.

PROFESSIONAL RECOGNITION

Graduates are eligible to apply for the license of Registered Nurses “註冊護士” (RN) from The Nursing Council of Hong Kong (NCHK).

CAREER PROSPECTS AND FURTHER STUDIES

Graduates can start their career in health and social care areas including hospital and community settings. In hospital, they can work at acute and non-acute units such as emergency department, operating room, paediatrics, medical and surgical units. In community setting, they can contribute to residential care services such as care of the elderly, care of the disabled. They can also work at family and child clinic, out-patient departments, ambulatory day-care centre etc. Graduates who wish to have career advancement as advanced practice nurse, nurse consultant, nurse manager, academic faculty member, researcher and etc. may pursue postgraduate studies in various areas such as master or doctoral degree in education, nursing, public health, social science, health service management etc.

Bachelor of Science (Honours) in Applied Gerontology

應用老年學科學(榮譽)學士學位

4 years full-time
QF Level 5

Programme Leader

Dr. Winnie Cheng

*PhD in Nursing, PolyU, MSc (Community Service Management), UWS, UK, BHS (Nursing) (ACU, Aust.)
Registered Midwife, Hong Kong Midwives Board
Registered Nurse (Aust. and HK)*

Medium of Instruction

Total No. of Credits

121.5 credits

Year	Tuition Fee (HK\$) (without subsidy)*	Tuition Fee (HK\$) (with subsidy)*
Year 1	\$77,750	\$47,750
Year 2	\$77,750	\$47,750
Year 3	\$77,750	\$47,750
Year 4	\$77,750	\$47,750
Programme Total	\$311,000	\$191,000
Annual Average	\$77,750	\$47,750

Senior Year Entry is available

Associate degree / higher diploma holders may apply. Please refer to P.41 for details of the admission requirements.

* Annual subsidy of HK\$30,000 under the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in HK.

PROGRAMME DESCRIPTION

The programme aims to nurture experts in gerontology to meet the challenges of ageing population in Hong Kong. It provides students with a full scope of theoretical knowledge in gerontology care, such as social gerontology, psychogerontology, public health, and health and social services planning and management.

In this programme, students would have experiential learning opportunities to apply gerontology and interdisciplinary theories in practice settings; and be equipped with the knowledge, skills, values and attitudes necessary for competent gerontological practice in diverse settings.

PROGRAMME STRUCTURE

Language courses	
Advanced English Writing Skills	English for Social Sciences
Applied Chinese Language (or Basic Chinese)*	Enhancing Academic English Skills
Developing English Language Skills	Putonghua

* Alternate Chinese course for “non-Chinese speaking” students only

Discipline courses	
Ageing, Family and Society	Formal and Informal Carers
Applied Gerontology Practicum I	Health and Positive Psychology
Applied Gerontology Practicum II	Health and Social Policy in an Ageing Society
Applied Psychology	Health and Social Service Planning and Delivery for Older People
Asset Management for Older People	Introduction to Age Related Changes

Discipline courses	
Basic Care for Older People	Introduction to Management
Capstone Project	Modern Technology for Older People
Chronic Illness Management	Public Health
Communication	Recreational Activities and Exercises for Older People
Comprehensive Assessment of Older People	Research Methods
Dementia Care	Small Business Management
Empowering Process in the Welfare Settings	+ 1 Discipline elective course
End-of-Life Care	
Ethical and Legal Aspects in Health and Social Care	
Food and Nutrition for Older People	

General Education (GE) courses	
The Development and Operation of Non-profit Organisations	+ Select 5 courses from the College's GE course list

CAREER PROSPECTS AND FURTHER STUDIES

This programme provides an area of specialisation for graduates to work with ageing population in multiple sectors. Graduates will be equipped with knowledge and skills required to work directly with older people or at the interface between older people and their environments in diverse settings ranging from residential homes to day care facilities, social welfare agencies, aged-friendly housing estates, or within the silver market business.

Graduates will have ample opportunities to pursue a career in areas such as aged care policy development, direct practice in health and social services with older people, health promotion and community development, silver market business and social research. They may enter the workforce as project coordinators or officers, and can be promoted to a higher position or advance to management levels after accumulating working experience in the aged care services. Graduates can also start a small business in the emerging silver market.

Higher Diploma in Nursing

護理學高級文憑

2 years full-time
QF Level 4

Programme Leader

Dr. Florence Wong
PhD in Nursing CUHK, MNurs HKU
Bachelor Degree of Technology in Specialty Nursing (Critical Care Nursing) (Hons), BCIT, Canada
Registered Nurse (Canada & HK)

Medium of Instruction

English

Total No. of Credits

86 credits

Year	Tuition Fee (HK\$)
Year 1	\$90,800
Year 2	\$90,800
Programme Total	\$181,600
Annual Average	\$90,800

PROGRAMME DESCRIPTION

The programme is to equip students with necessary knowledge, skills and attitude to meet the statutory requirements to enrol with the Nursing Council of Hong Kong (NCHK) as an Enrolled Nurse “登記護士” (EN). It will develop students' competence in health promotion, maintenance and restoration, and prevention of illness through the delivery of primary, secondary and tertiary health care in hospital and community settings; equip students with effective communication skills for the delivery of individualised care as well as for facilitation of teamwork; develop students' understanding of psychosocial, cultural and environmental dimensions of health and illness; equip students with critical, creative and analytical problem solving skills; and develop students' generic attributes for their all-roundness.

PROGRAMME STRUCTURE

Language courses	
Applied Chinese Language (or Basic Chinese)*	Developing English Language Skills

* Alternate Chinese course for “non-Chinese speaking” students only

Discipline courses	
Care of Adults	Ethical and Legal Aspects of Health Care
Care of Children and Adolescents	Fundamentals of Nursing I
Care of Older Persons	Fundamentals of Nursing II
Care of Patients with Chronic Illness	Human Anatomy and Physiology
Clinical Practicum I (6 weeks)	Introduction to Mental Health Nursing
Clinical Practicum II (14 weeks)	Microbiology and Pharmacology
Clinical Practicum III (6 weeks)	Professionalism and Contemporary Nursing
Clinical Practicum IV (16 weeks)	+ 1 Discipline elective course*
Concepts of Health	

* Students can choose either “Rehabilitation and Adaptation in Ageing” or “Primary Care and Community Nursing” as elective (discipline) in the programme.

General Education (GE) courses	
Applied Psychology	Creative and Critical Thinking
Applied Sociology	Introduction to Research and Evidence-based Practice
Communication	

PROGRAMME-SPECIFIC REQUIREMENTS

- Have obtained Level 2 in five HKDSE subjects including Chinese Language, English Language and Mathematics (“222+22”). (Each applicant is allowed to use not more than two Applied Learning subjects in the application); OR
- Have obtained a pass in one AL subject or passes in two AS subjects in HKALE and five passes in HKCEE including Chinese Language and English Language; OR
- Have obtained a pass in one AL subject or passes in two AS subjects in HKALE and three passes in HKCEE plus Level 2 in Chinese Language and English Language; OR
- Have obtained equivalent qualifications.

PROFESSIONAL RECOGNITION

The programme is recognised by The Nursing Council of Hong Kong (NCHK) as a pre-enrolment nursing training programme. Graduates are eligible to apply for the enrolment as Enrolled Nurses (ENs) "登記護士" under the Nurses Registration Ordinance (Cap 164) of Hong Kong.

CAREER PROSPECTS AND FURTHER STUDIES

After graduates have received their EN licenses, they may work in hospitals and residential care settings of the publicly and privately owned organisations as well as the non-profit organisations. Qualified ENs can be case managers if they are employed in the elderly care and rehabilitation services.

Graduates may also pursue a bachelor's degree programme in Nursing or other disciplines at TWC and other local or overseas institutions.

Diploma in Health Studies (Navigation Scheme For Young Persons In Care Services)

健康科學文憑

2 years part-time
QF Level 3

Programme Leader	Ms. Olivia Po <i>MNurs (Advanced Practice) HKU, B.Sc. in Nursing UBC, Canada Post-registration Diploma in Health Care Education (Nursing), PolyU</i>
Medium of Instruction	Chinese
Total No. of Credits	31 credits

Year	Tuition Fee* (HK\$)
Year 1	\$30,000
Year 2	\$30,000
Programme Total	\$60,000
Annual Average	\$30,000

* Upon completion of programme, tuition fee will be reimbursed by the Social Welfare Department.

PROGRAMME DESCRIPTION

The programme is to equip students with the necessary knowledge, skills and attitude to give clients and their families the care and assistance needed to live in the community. The curriculum is designed based on the concepts of caring, safety, critical thinking and professional approach. The objectives of the programme are:

- (1) to develop students' ability to provide personal care and assistance that cater to the individual needs and abilities of clients/residents;
- (2) to enhance students' communication skills for the delivery of personal care as well as for the facilitation of teamwork;
- (3) to develop students' understanding of the concepts of holistic care that promotes the client/resident's physical, psycho-social and spiritual health and wellbeing;
- (4) to facilitate student's development in critical, creative and analytical problem solving skills; and
- (5) to develop students' basic skills to practise in residential care homes for the elderly and persons with disabilities.

PROGRAMME STRUCTURE

Language courses	
Fundamentals of the Chinese Language	Practical English for Healthcare Workers
Foundation English	

Discipline courses	
Integrated Course of Combined Health Worker (Module 1 - 5) Module 1 - Introduction to Elder Care Module 2 - Physical Care of Elderly Module 3 - Residential Care - Elderly Persons (1) Module 4 - Residential Care - Persons with Disabilities Module 5 - Residential Care Home Practicum	Residential Care – Elderly Persons (2) Rehabilitation Care

General Education (GE) course
Creative and Critical Thinking

PROGRAMME-SPECIFIC REQUIREMENTS

- A permanent resident of the HKSAR aged 18-25;
- Fluent in Cantonese and written Chinese;
- Be able to read and write simple English;
- Has successfully completed S6 training or any equivalent qualification that is recognised by the Education Bureau.

PROFESSIONAL RECOGNITION

Students who have successfully completed the first year of the programme are eligible to apply for registration with the Social Welfare Department (SWD), HKSAR as a Health Worker “保健員”.

CAREER PROSPECTS AND FURTHER STUDIES

Graduates may serve in residential care homes, day care centres, or healthcare clinics in the community. Those who want to pursue further study for career advancement to professional level are eligible to apply for the Higher Diploma in Psychology programme at TWC.

Scholarships And Financial Assistance

Scholarships / Bursaries	Amount (per head)
TWC Entrance Scholarships for Business and Psychology Programmes	BSSc(APsy)/BBA/BBA(EM): HK\$30,000 For year 1 students with a HKDSE score of 15 or above (4 core subjects + 1 elective subject) HD(BusS)/HD(Psy): HK\$20,000 For students with a HKDSE score of 12 or above (2 core subjects + 3 elective subjects)
TWC Bursaries	HK\$ 2,000 – HK\$ 40,000
Bursaries for Applied Gerontology	HK\$ 2,000 – HK\$ 40,000
Scholarship for Applied Gerontology	HK\$ 15,000 – HK\$ 30,000
7749 Scholarship	HK\$ 20,000
The Association of Chairmen of The Tung Wah Group of Hospitals Scholarship	HK\$ 20,000
K.K.Chow Scholarship	HK\$ 10,000 – HK\$ 20,000
TWGHs Eddie Wang Scholarships	HK\$ 10,000 – HK\$ 20,000
TWGHs Entrance Scholarships	HK\$ 10,000 – HK\$ 15,000
TWGHs Ma Kam Chan Memorial Scholarships	HK\$ 5,000 – HK\$ 15,000
Lui Chez Tim & Leung Kuen Scholarship	HK\$ 12,000
759 Store Scholarship	HK\$ 10,000
TWGHs Deborah Kwan Siu Lai-kwan Scholarships	HK\$ 10,000
Jeny Yeung Scholarship	HK\$ 5,000 – HK\$ 10,000
Living Stones Scholarship	HK\$ 5,000 – HK\$ 10,000
TWGHs Fung King Wai Scholarships	HK\$ 5,000 (Sub-degree) HK\$ 10,000 (Bachelor's degree)
HKSAR Self-financing Post-secondary Scholarship Scheme (SPSS)	
Outstanding Performance Scholarship	HK\$ 30,000 – HK\$ 80,000
Endeavour Scholarship	HK\$ 10,000
Best Progress Award	HK\$ 10,000
Talent Development Scholarship	HK\$ 10,000
Reaching Out Award	HK\$ 10,000

All scholarships and bursaries are subject to availability of funding.

FINANCIAL ASSISTANCE

The Student Finance Office (SFO) of the Hong Kong SAR Government provides a number of financial assistance schemes. The following schemes are available for eligible local students of TWC:

- **Financial Assistance Scheme for Post-secondary Students (FASP)**
- **Non-means-tested Loan Scheme for Post-secondary Students (NLSPS)**

The NLSPS is used to complement the FASP to provide loan(s) to eligible students to settle tuition fees. Therefore, eligible full-time students who apply for financial assistance under the FASP may concurrently apply for loan(s) under the NLSPS.

For more information, please visit www.wfsfaa.gov.hk

Bachelor of Health Science (Honours) in Nursing
Higher Diploma in Nursing

Students' And Graduates' Sharing

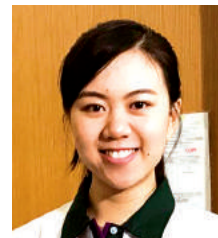

Beatrice Chan

Graduate (2016)
Bachelor of Social Science (Hons) - Applied Psychology Major

The comprehensive and practical programme covers a wide array of fields including behavioral, as well as interview and research skills. It lays a solid foundation for my academic development and builds my independent thinking skills.

Tiffany Yuen

Graduate (2017)
Bachelor of Science (Hons) in Occupational Therapy

My voluntary work experience in hospitals inspired me to choose TWC's Occupational Therapy programme in the hope of helping patients through appropriate treatments and care. At TWC, I was given not only the opportunity to have clinical placements at hospitals and NGOs, but also the chance to join an overseas study tour in Australia to understand the daily works of professional occupational therapists.

Wai-tai Lo

Graduate (2016)
Bachelor of Medical Science (Hons) - Medical Laboratory Science Major
Currently works in Tuen Mun Hospital

The MLSc programme equips me to pursue a career in the field of medical laboratory science that really interests me. During my study, with the guidance from teachers, my scientific knowledge and understanding on bacteria and diseases have been enriched. Through participating in clinical training, I gained much practical knowledge and strengthened my communication skills.

Ada Cheung

Graduate (2016)
Bachelor of Medical Science (Hons) - Radiation Therapy Major
Currently works in St. Teresa's Hospital

The four years of challenging study provided me with a comprehensive grasp of the causes, treatments of cancer and their side effects. Through the handling with different patients during clinical training in hospitals, my communication skills have been strengthened.

Joey Pang

Graduate (2016)
Bachelor of Business Administration (Hons), major in Health Services Management
Currently an Assistant Officer in Health Information and Record Department of Gleneagles Hong Kong Hospital

TWC has been dedicated to providing students with a pleasant learning environment and offering a series of professional programmes. Life here has been a great turning point for me. I have developed close relationships with fellow schoolmates as well as the teaching and administrative staff and have been given abundant opportunities for internships and community services.

Helen Ho

Graduate (2016)
Bachelor of Health Science (Hons) – Nursing Major

Having studied at TWC for four years from associate degree to bachelor's degree programme, I would like to express my gratitude to the College and my teachers for bringing me closer to my dream of becoming a nurse (*Registered Nurse*).

General Admission Requirements

DEGREE PROGRAMMES

Year 1 Entry

For Year 1 entry to degree programmes, applicants should meet one of the following requirements:

1. Have obtained Level 3 in Chinese Language and English Language and Level 2 in Mathematics and Liberal Studies plus one Elective/Applied Learning Subject at Level 2 ("3322+2") in HKDSE; OR
2. Have passes in AS Use of English and AS Chinese Language and Culture plus one AL subject/two AS subjects in HKALE and Level 2 for Chinese Language and English Language plus passes in three other subjects in HKCEE; OR
3. Have obtained the International Baccalaureate (IB) Diploma with a minimum score of 28 and fulfilled the English language requirements:
 - i. Grade 4 or better in the Higher Level English Language (B Syllabus); or
 - ii. Grade 5 or better in the Standard Level English Language (B Syllabus); or
 - iii. Grade 4 or better in the Higher or Standard Level English Language (A1 or A2 Syllabus); or
 - iv. Grade 4 or better in the Standard Level English - Text and Performance; or
 - v. Grade 4 or better in the Standard Level English - Literature and Performance (A1 syllabus); OR
4. Have met the 2nd cut-off line of the respective province for admission to mainland key universities in the National Joint College Entrance Examination (JEE) and the scores of English Language is over 100 (普通高等學校聯合招生考試(JEE,PRC)達到所屬省市報讀第二批重點高校分數線以上及英語科達100分或以上); OR
5. Have obtained equivalent qualifications (such as meeting the admission requirements of a degree programme offered outside Hong Kong).

Senior Year Entry

Individual undergraduate programmes admit students for senior year entry. Applicants should meet one of the following requirements:

1. Have completed an Associate Degree Programme (AD) or Higher Diploma Programme (HD) of the relevant subject/discipline; OR
2. Have obtained equivalent qualifications.

Students admitted to the Senior Year may be required to satisfactorily complete some bridging courses. The bridging courses can be Discipline courses or General Education courses offered in the first two years of the curriculum.

SUB-DEGREE PROGRAMMES

Year 1 Entry

For Year 1 entry to sub-degree programmes, applicants should meet one of the following requirements:

1. Have obtained Level 2 in five HKDSE subjects including Chinese Language and English Language ("22+222"). (Each applicant is allowed to use not more than two Applied Learning subjects in the application); OR
2. Have obtained a pass in one AL subject or passes in two AS subjects in HKALE and five passes in HKCEE including Chinese Language and English Language; OR
3. Have obtained a pass in one AL subject or passes in two AS subjects in HKALE and three passes in HKCEE plus Level 2 for Chinese Language and English Language; OR
4. Have successfully completed a Pre-Associate Degree programme; OR
5. Have successfully completed Diploma Yi Jin programme; OR
6. Have met the 2nd cut-off line of the respective province for admission to mainland key universities in the National Joint College Entrance Examination (JEE) (普通高等學校聯合招生考試(JEE,PRC)達到所屬省市報讀第二批重點高校分數線以上); OR
7. Have obtained equivalent qualifications; OR
8. Have reached the age of 21 and above.

Note: Mainland students will NOT be admitted until formal agreement to the admission is given by the Ministry of Education of the PRC.

ALTERNATIVE CHINESE LANGUAGE (ACL) FOR NON-CHINESE SPEAKING STUDENTS

For **non-Chinese speaking** students, TWC accepts the following two alternative qualifications in Chinese Language (ACL):

1. Students obtained the minimum grade in the Chinese Language under GCE, GCSE and IGCSE.

Examination	Subject	Minimum grade required
General Certificate of Education Examination (GCE) - (Advanced Level) (only UK accredited GCE will be considered)	Chinese Language	Grade E or above
General Certificate of Education Examination (GCE) - (Ordinary Level) (only UK accredited GCE will be considered)		Grade C or above
General Certificate of Secondary Education Examination (GCSE)		Grade C or above
International General Certificate of Secondary Education Examination (IGCSE)		Grade C or above

2. Students obtained the grade “Attained” in the Applied Learning Chinese (ApL(C)).

Graduation Requirements

To be considered for the award of a qualification, a student shall:

1. Have completed the minimum required credit units as prescribed for the programme with a Graduation Grade Point Average (gGPA) of at least 2.0.
2. Have achieved GPA of 1.0 or above for all courses in the programme;
3. Have satisfied the requirements of the graduation project / practicum, if any, as prescribed for the academic programme;
4. Have completed the Work Integrated Learning Programme / Co-operative Education Scheme / Community Service programme, if any, as required by the programme; and
5. Have attained a valid score of 6.0 in IELTS or equivalent (for degree level programmes only). (Students would be considered as having fulfilled the requirement if they have obtained a valid score in IELTS or equivalent at the commencement of the programme.)
