TUNG WAH COLLEGE

CORPORATE BROCHURE

About TWC

Tung Wah College (TWC) is a self-financing tertiary institution established in 2010 by the Tung Wah Group of Hospitals (TWGHs). Our mission is to provide high-quality programmes with a strong focus on applied education, nurturing socially responsible and caring professionals to meet evolving community needs. With over 6,100 students, the College currently offers 24 doctoral, master's, bachelor's and sub-degree programmes, as well as certificate courses, across both healthcare and non-healthcare disciplines. The College also places strong emphasis on applied research and has established a range of applied research initiatives aimed at driving transformation and community impact. As an Associate Member of the Alliance of Universities of Applied Sciences (UAS), the College is on a clear and steady path to a private university and a UAS, demonstrating its growing academic strength, innovation, and societal impact.

> *"WE aim to be a transformative force by broadening our scope and strengthening our position to become a leading UAS in the Asia-Pacific region. In support of the Government's vision to further develop Hong Kong as an international education hub, the College will continue to strengthen its ties with international and regional partners. By fostering collaboration among industry, academia and the research community, we will support Hong Kong's long-term growth and contribute to the nation's broader development."*

Applied Education for Future Leadership

TWC's education is firmly grounded in application, closely aligned with market trends to nurture highly competitive future leaders with its sound academic foundations with practical placements, internships and real-world engagement.

- Interprofessional Education
- Industry-Informed Curricula
- Industry-Experienced Faculty
- Internship and Placement Opportunities
- Industry-Academia-Research Collaboration
- High Graduate Employability

Advancement of applied education in collaboration with the Alliance of Universities of Applied Sciences

Integration of advanced technology into teaching

Practicum to develop professional competence

Interprofessional education for transformative learning experience

Research for Transformation and Community Impact

TWC advances societal progress through applied research. We foster a culture of innovation, empowering our researchers to conduct translational research to tackle societal challenges through interdisciplinary collaboration. Our goal is to translate knowledge into real-world solutions that are both impactful and enduring for the communities we serve.

We build on our strong partnerships with industry and service providers to initiate research projects aimed at advancing the development of innovative treatments and interventions, and the overall community well-being.

Research Excellence

Outstanding Scholars

Professor Sally Chan, President of TWC, is the first nurse scholar from Hong Kong to receive the Nell J. Watts Lifetime Achievement in Nursing Award from the Sigma Theta Tau International Honor Society of Nursing. TWC scholars have been listed among the World's Top 2% Scientists by Stanford University, which is indicative of TWC's growing research strength and impact on our local, regional and global communities.
